

## Проект «Кухня» (Лего «Строительные кирпичики»)

Мы сделаем кухню с угловым расположением мебели и бытовой техники. *Угловое* расположение (вдоль двух смежных стен) используют для узких помещений; оно позволяет рационально разместить оборудование и обеденный стол.

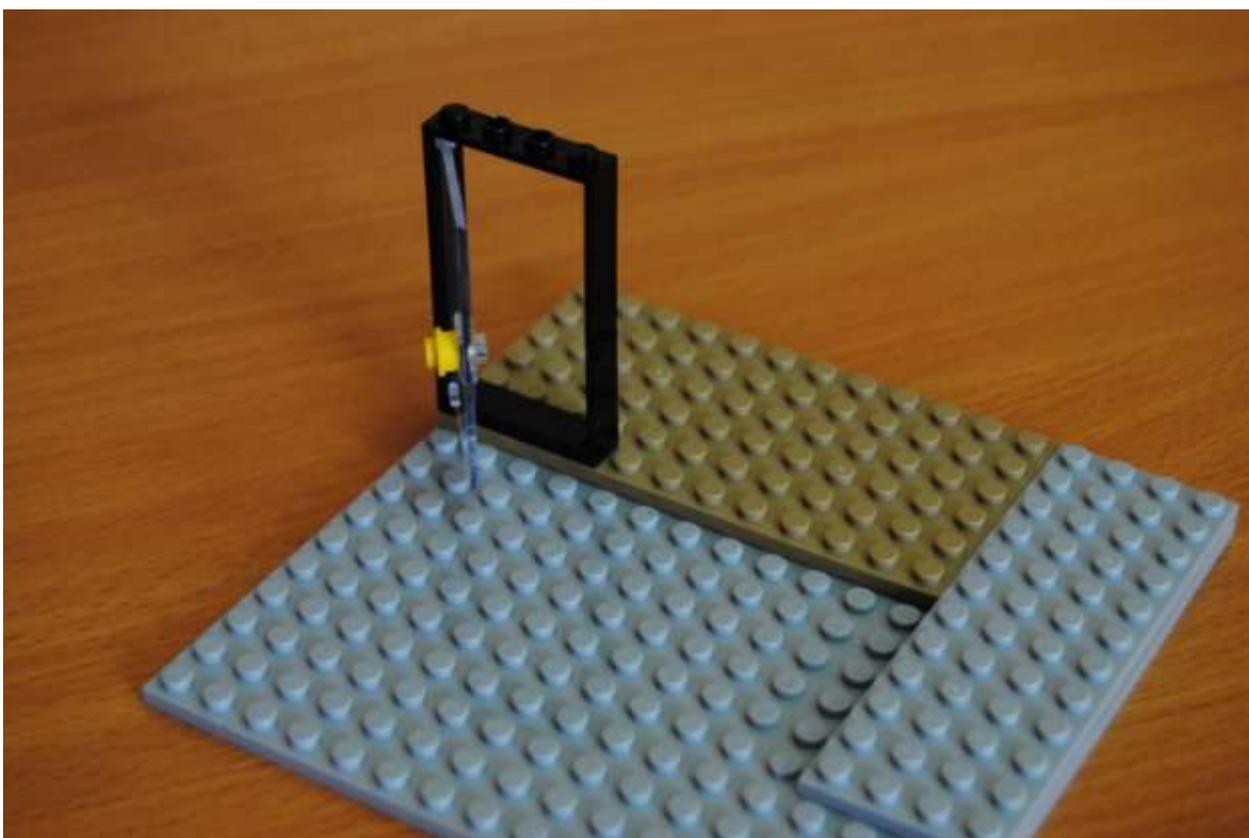

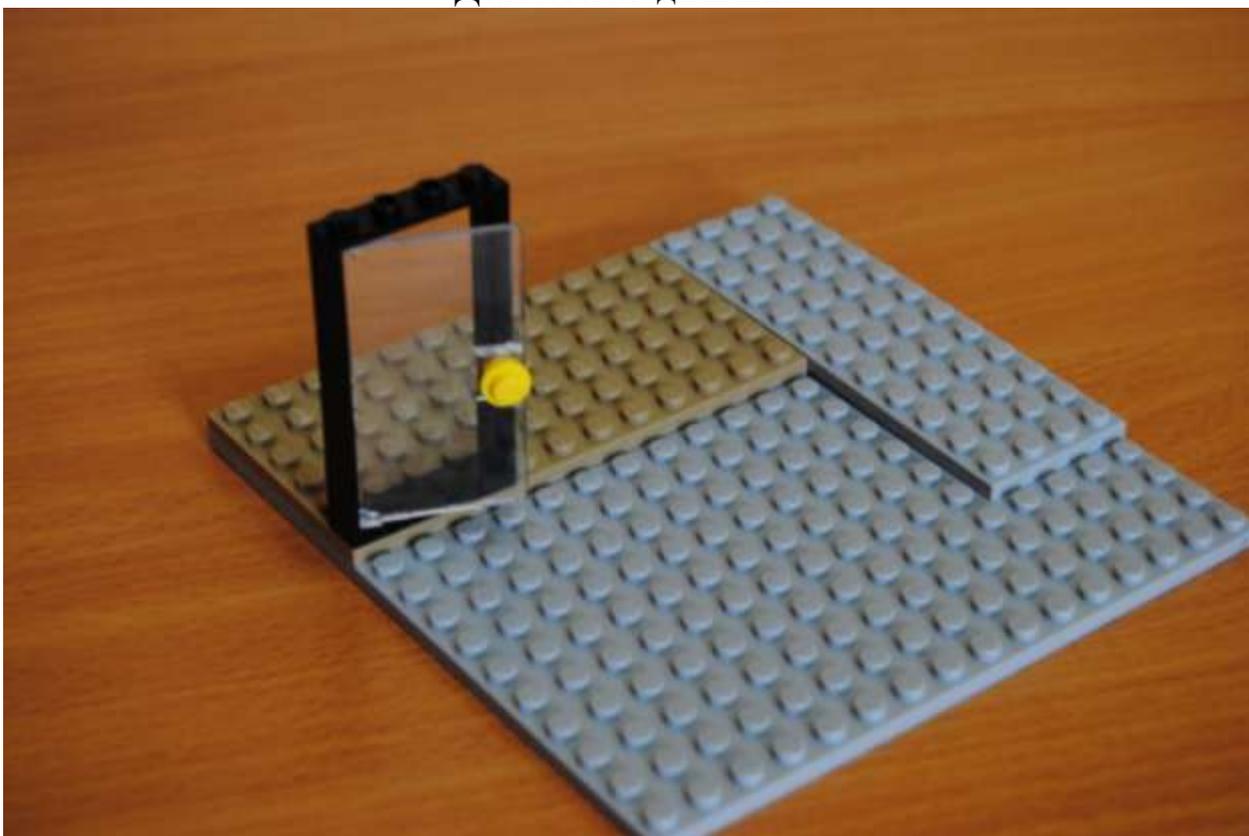

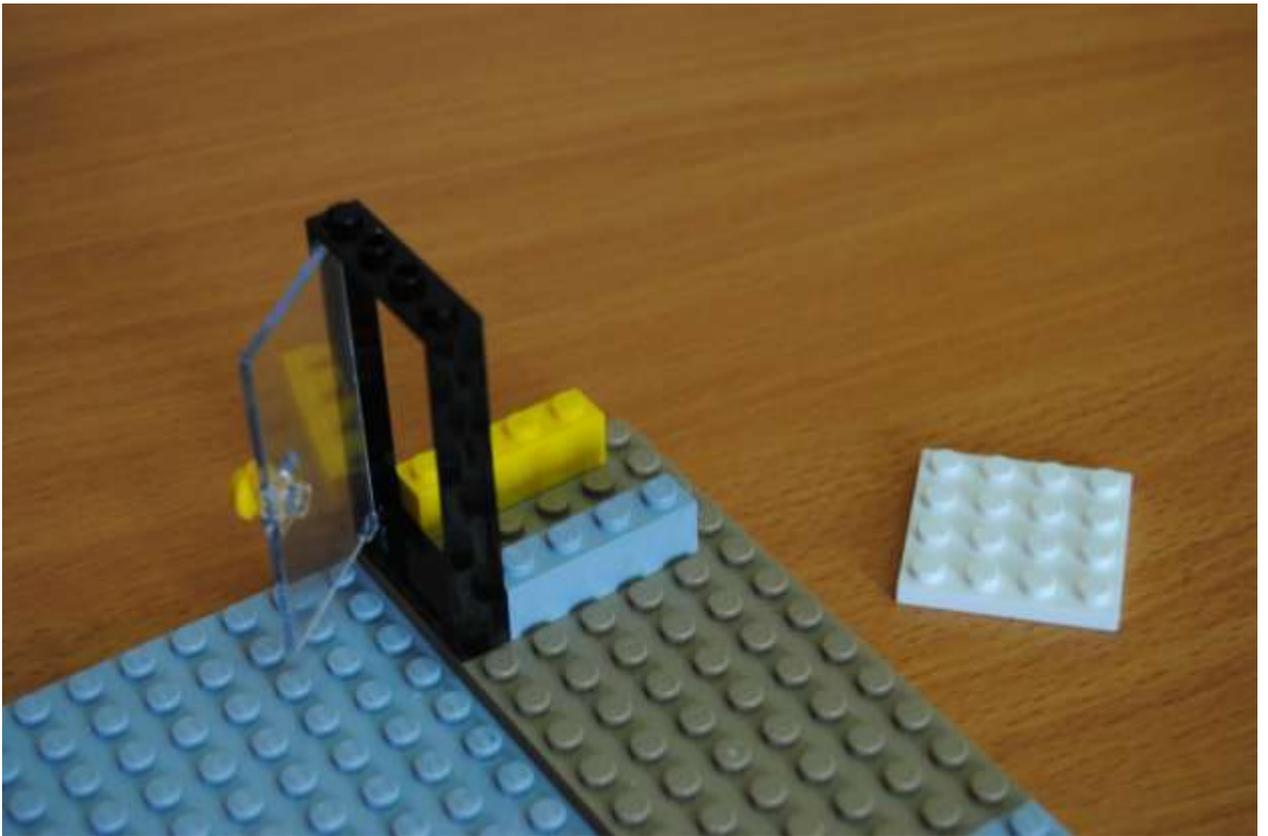

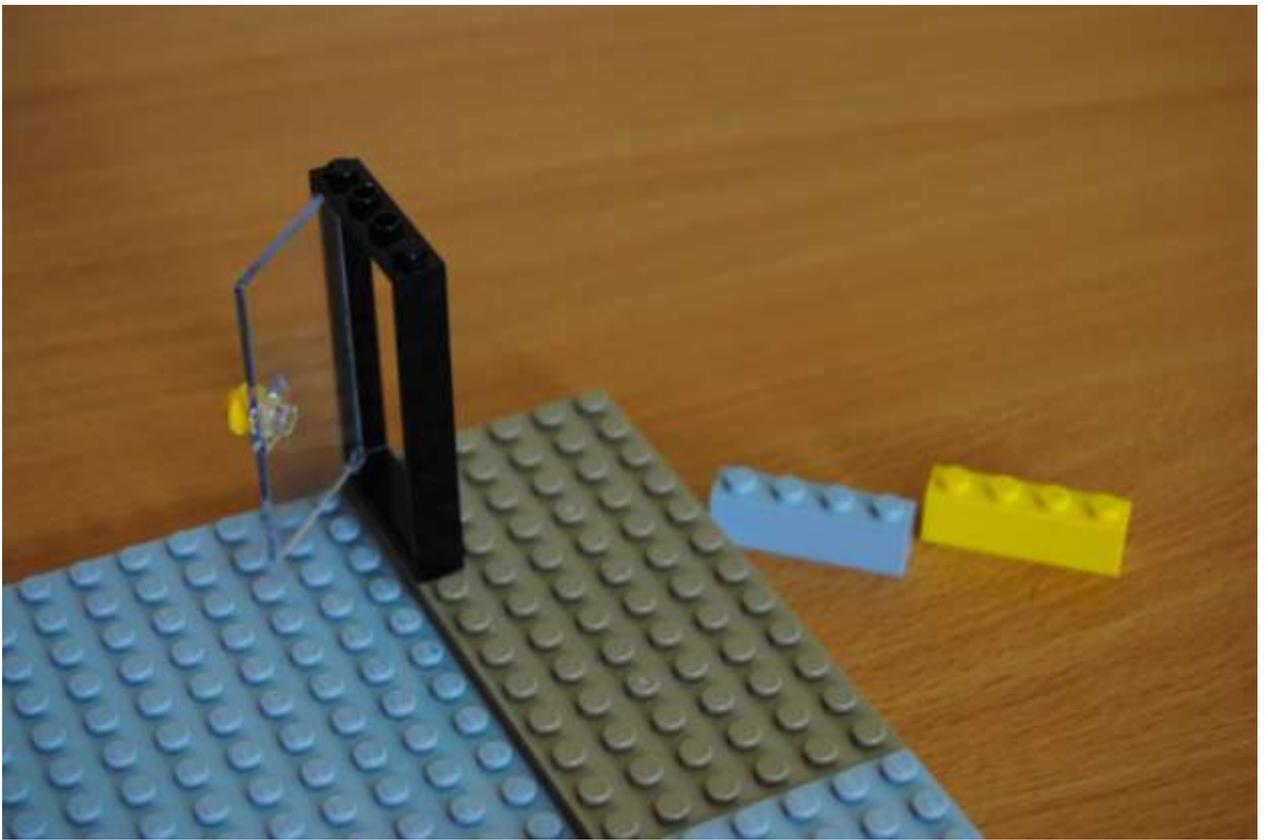

Итак, начинаем..

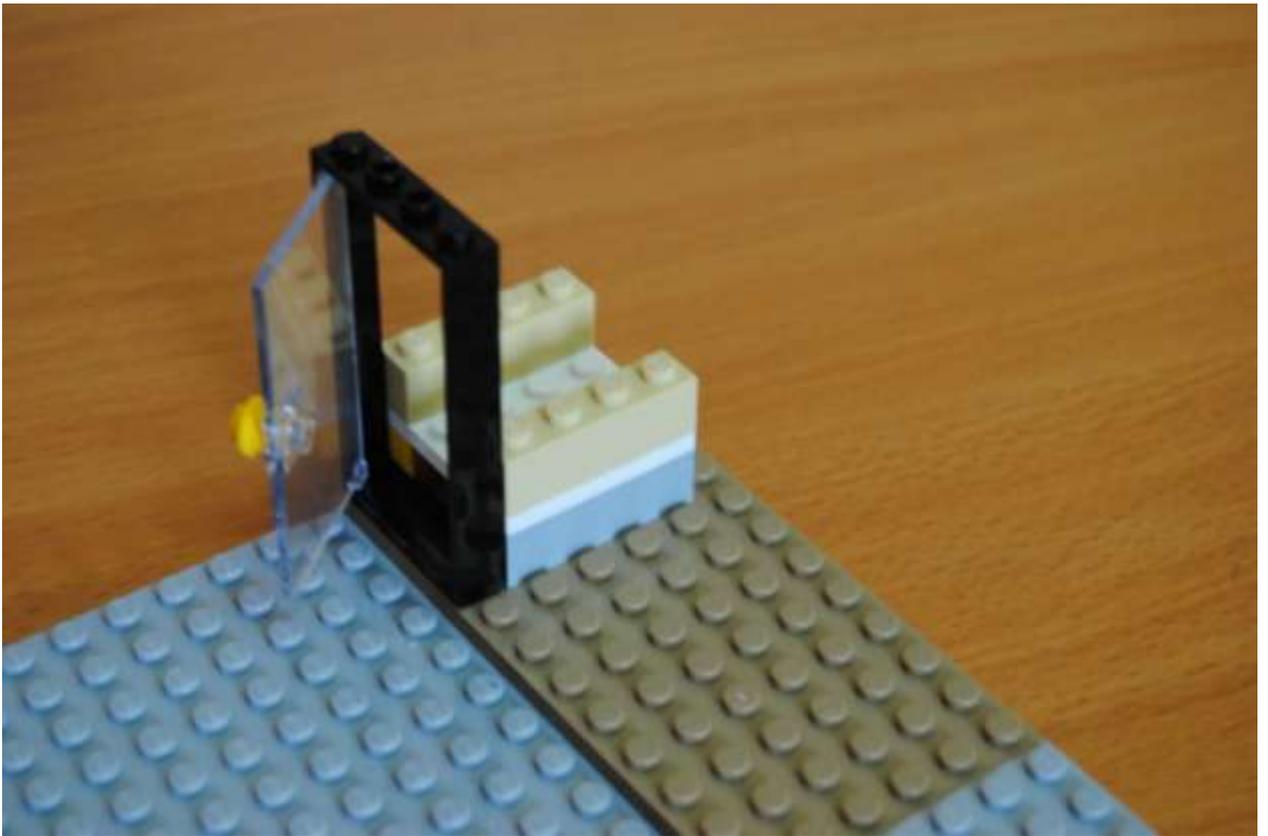

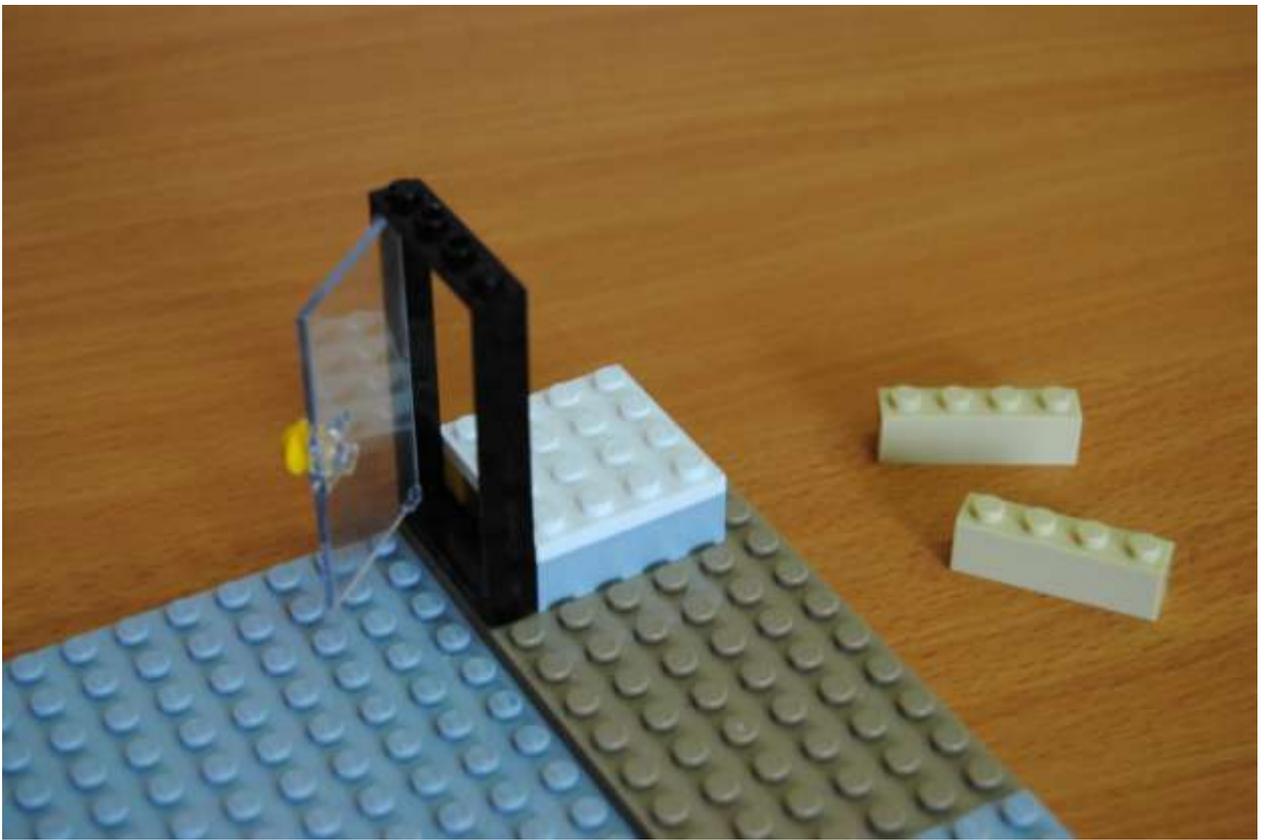

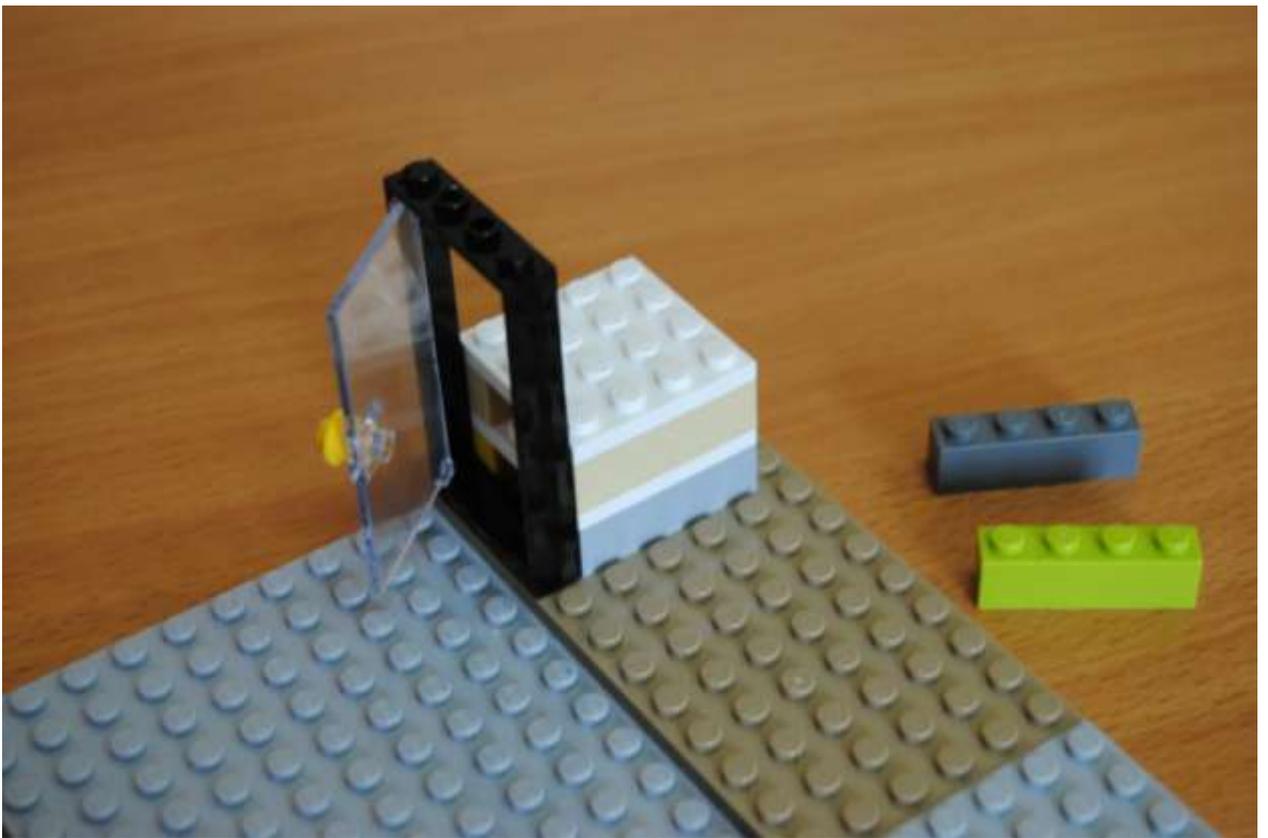

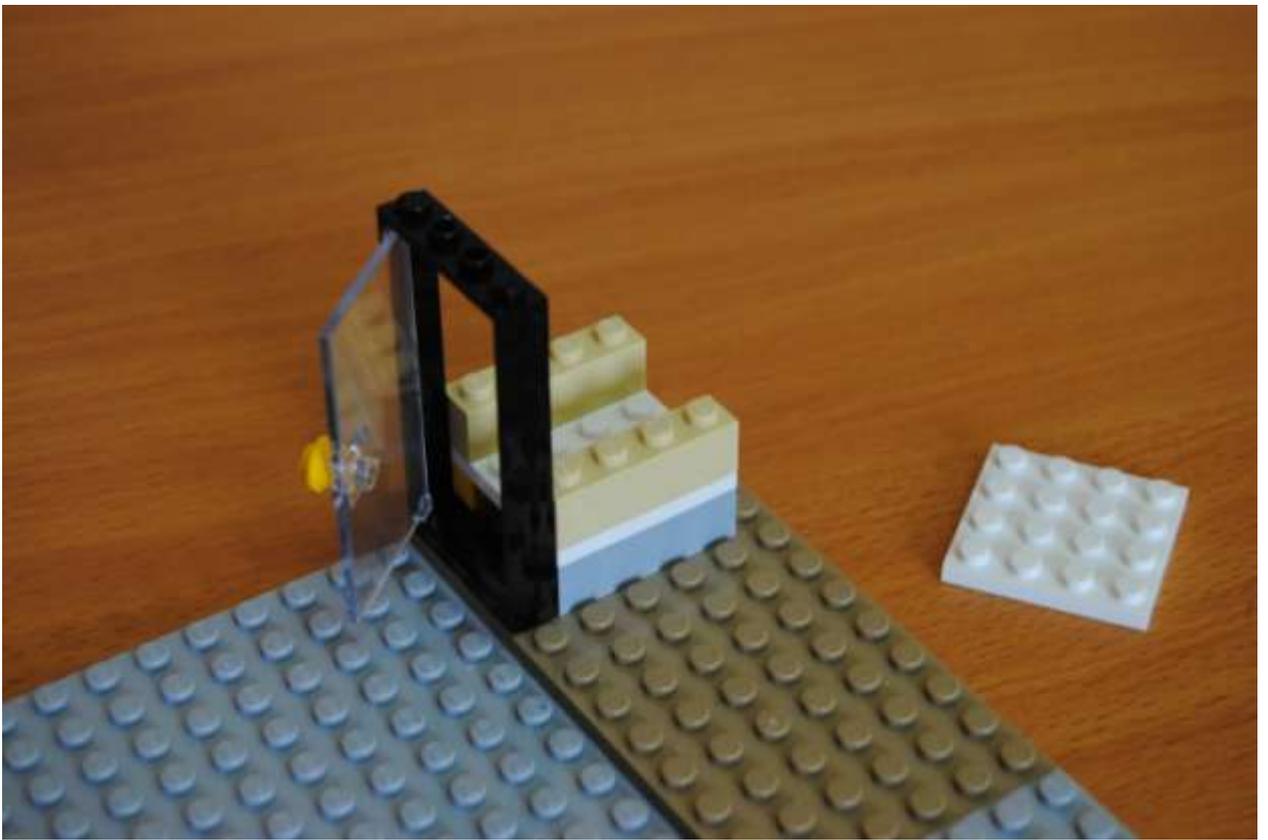

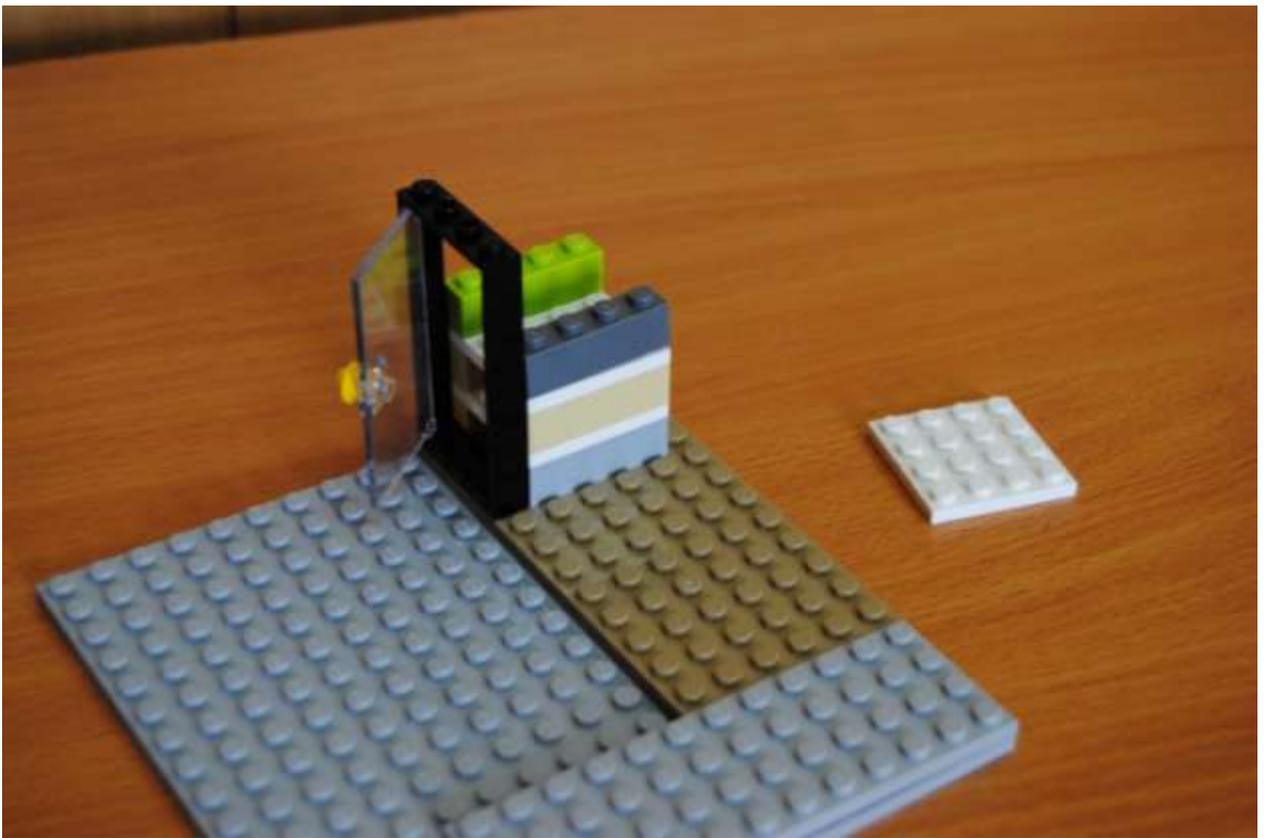

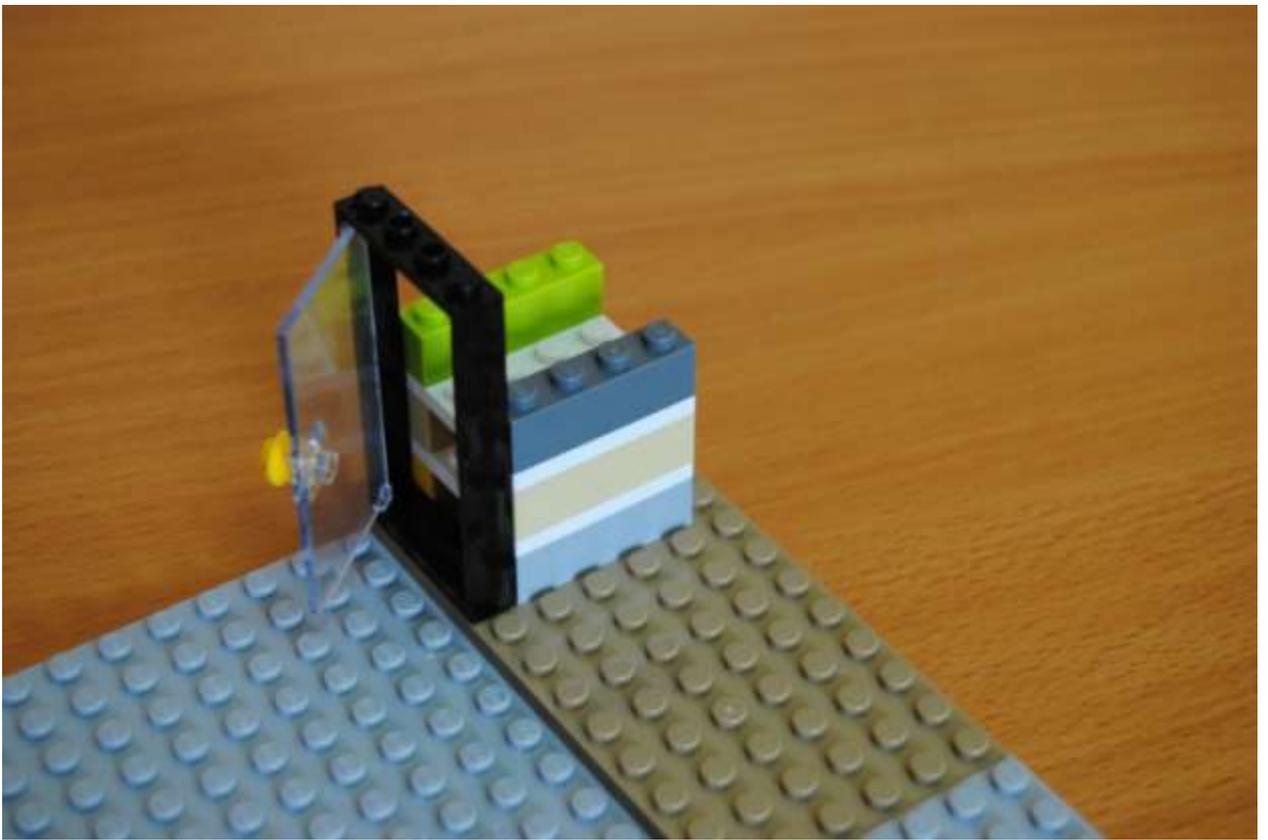

Делаем холодильник.

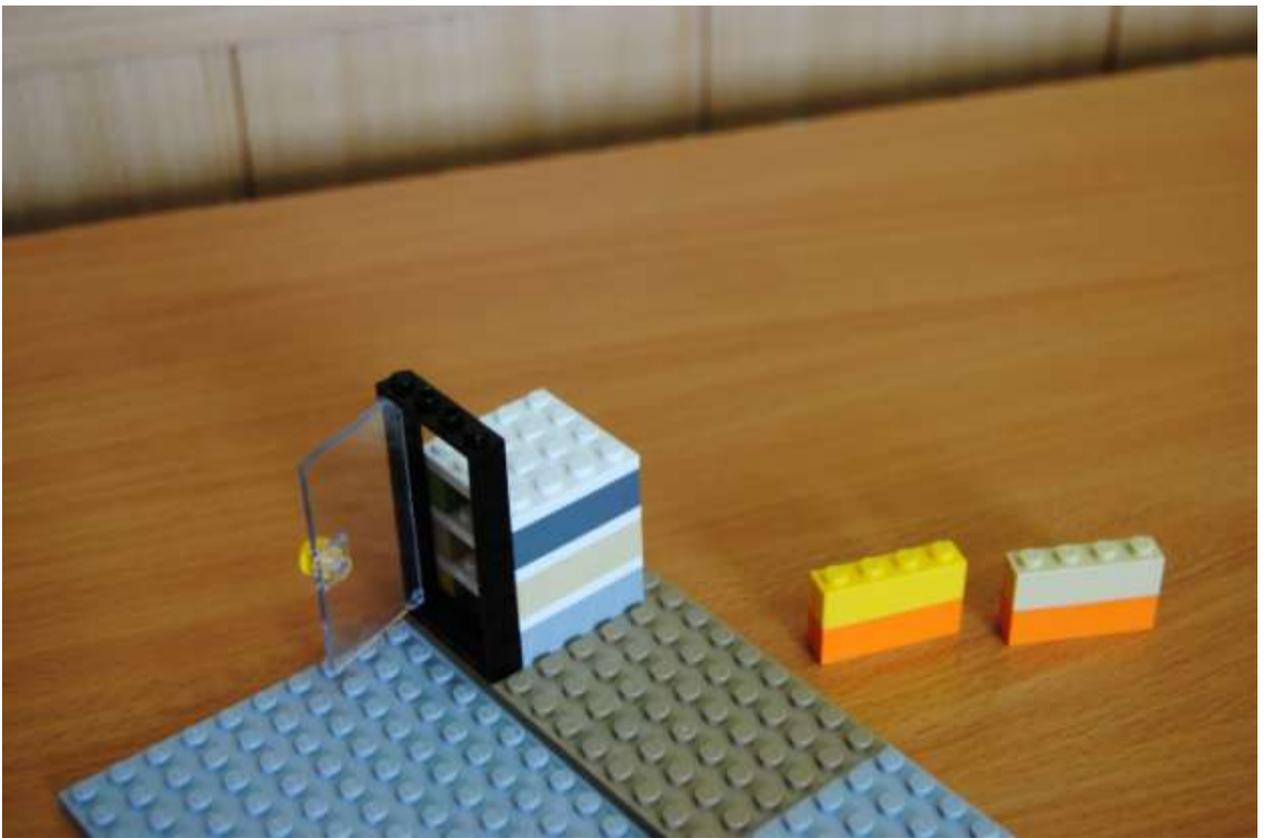

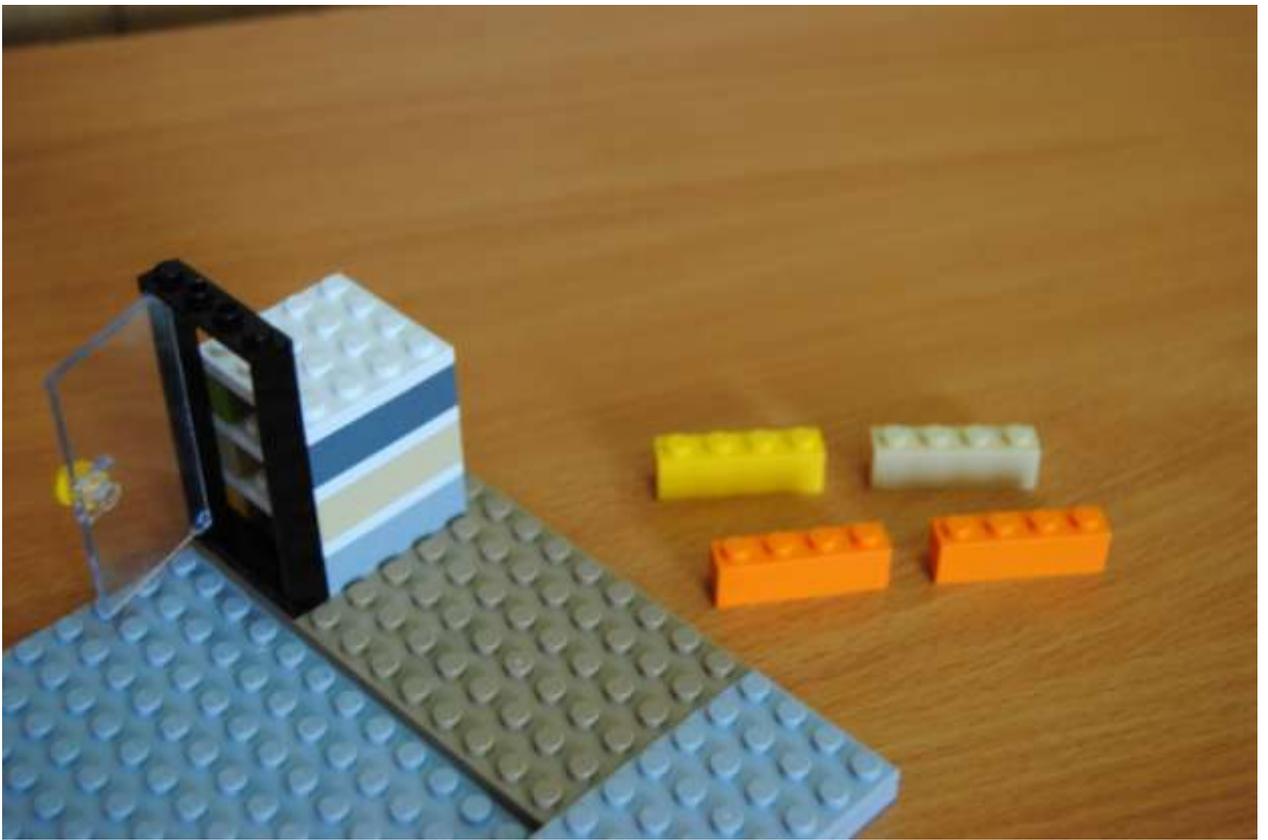

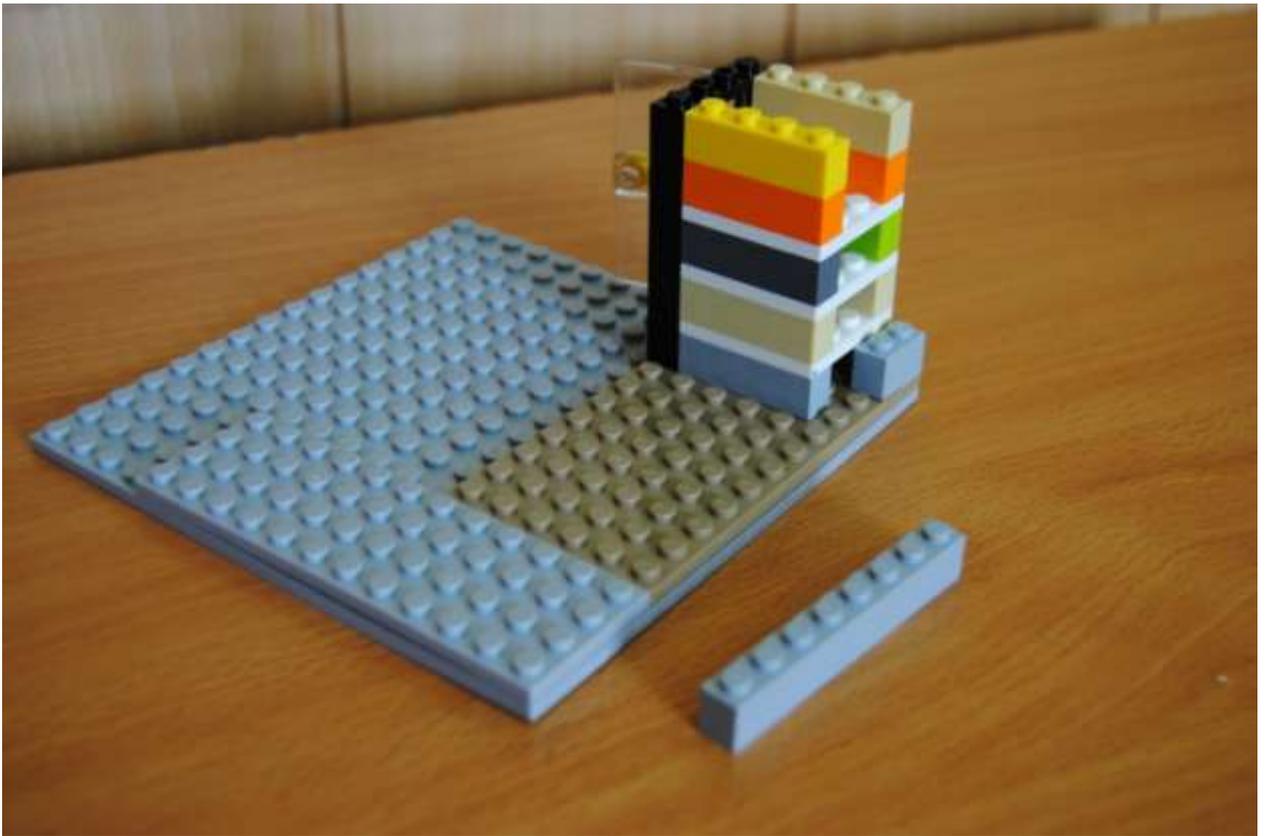

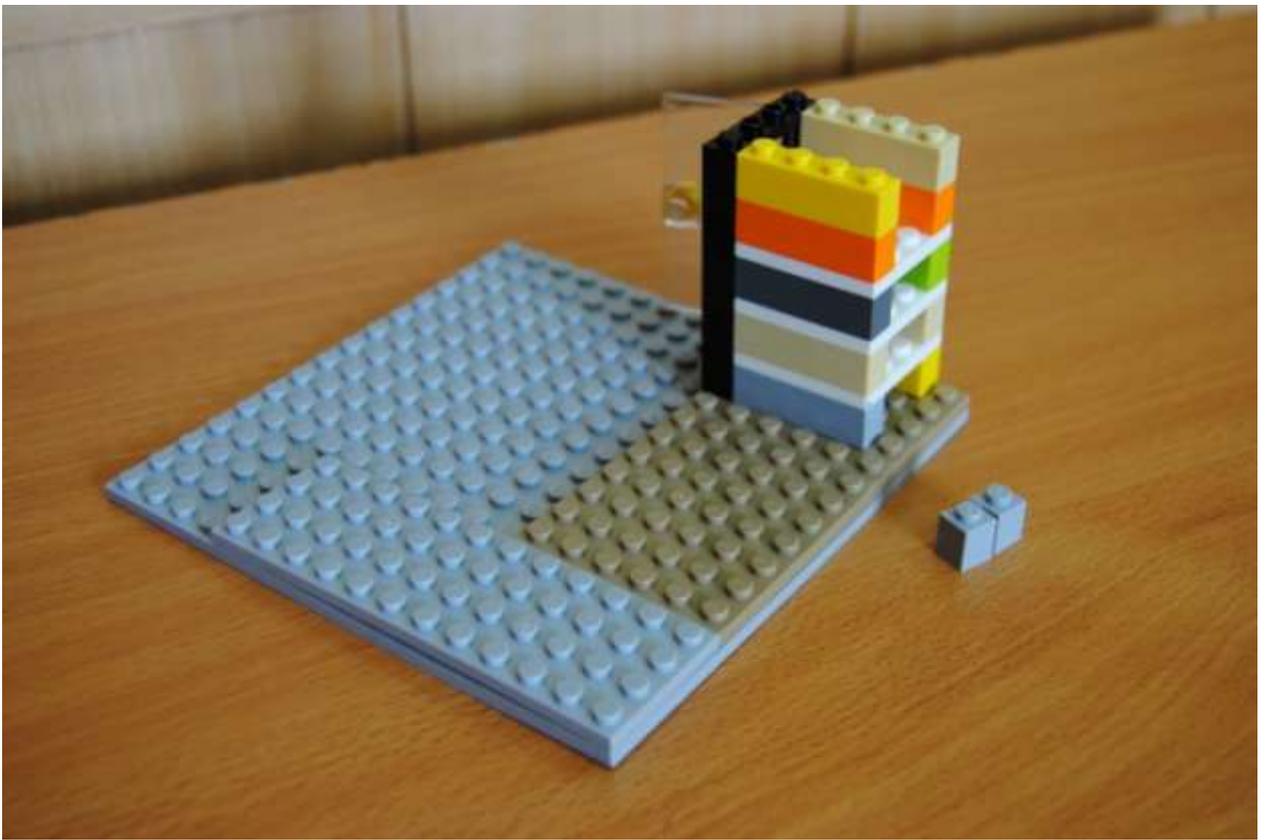

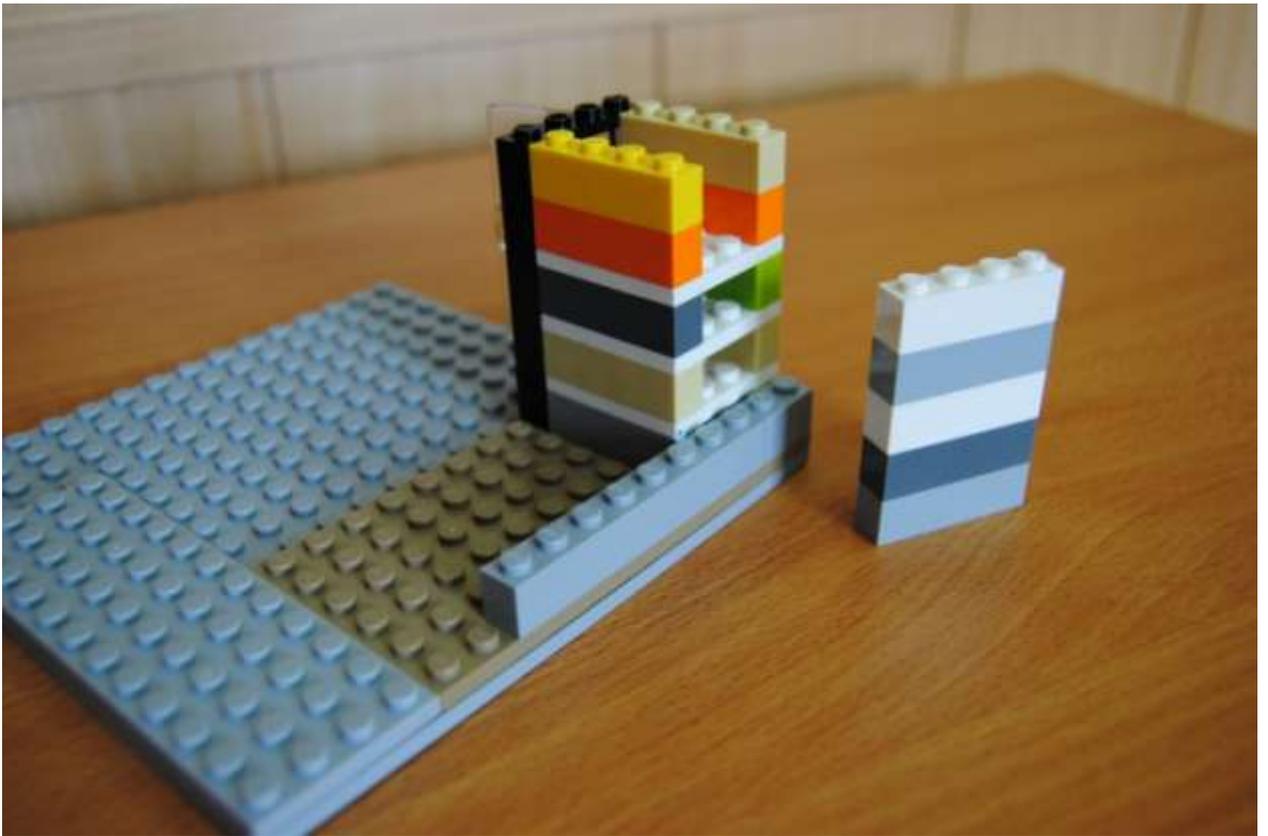

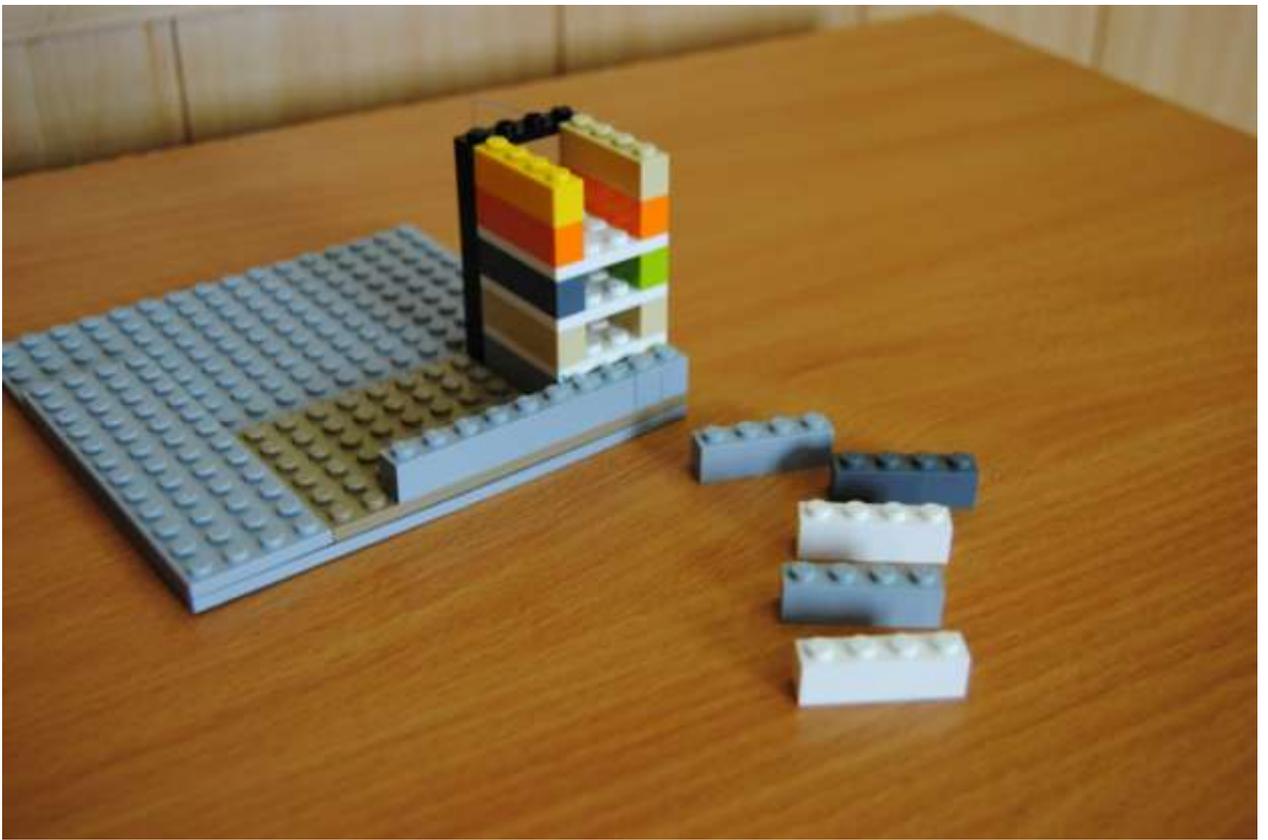

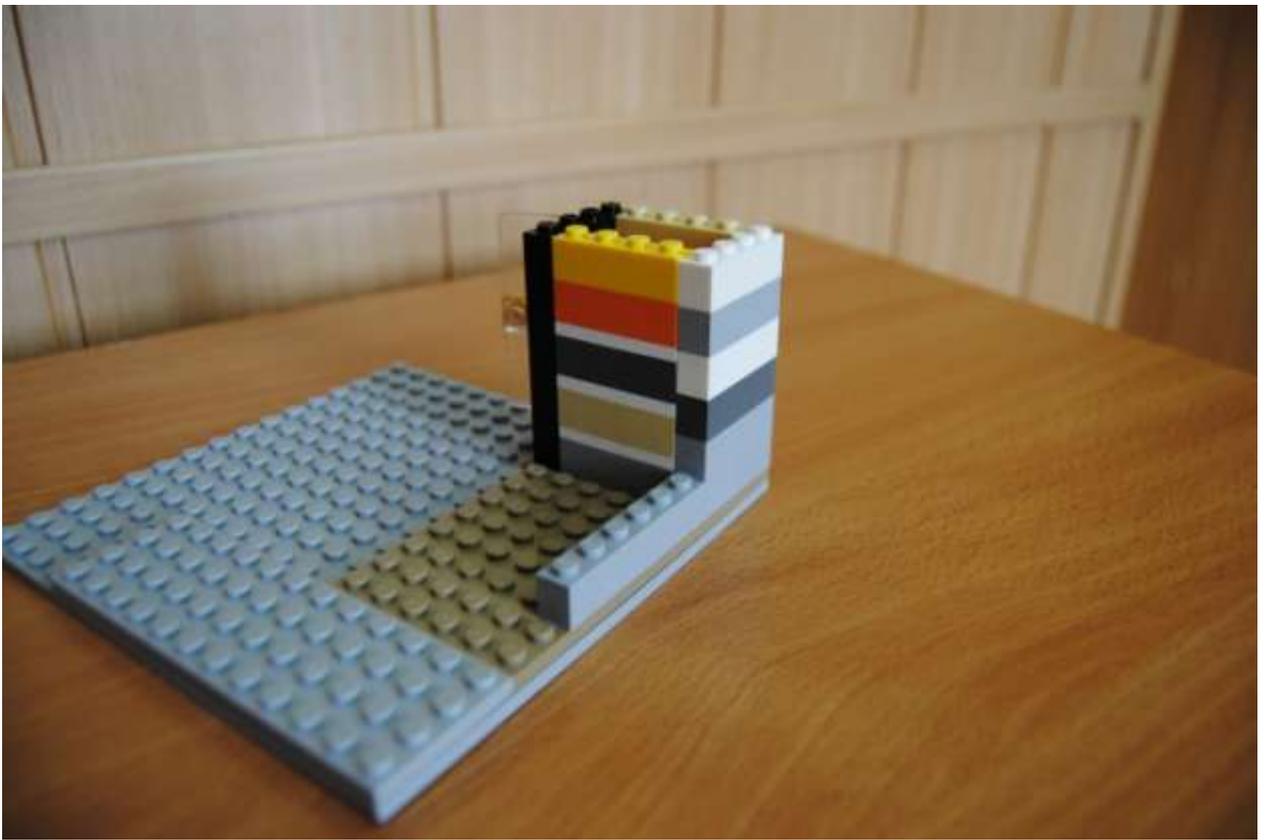

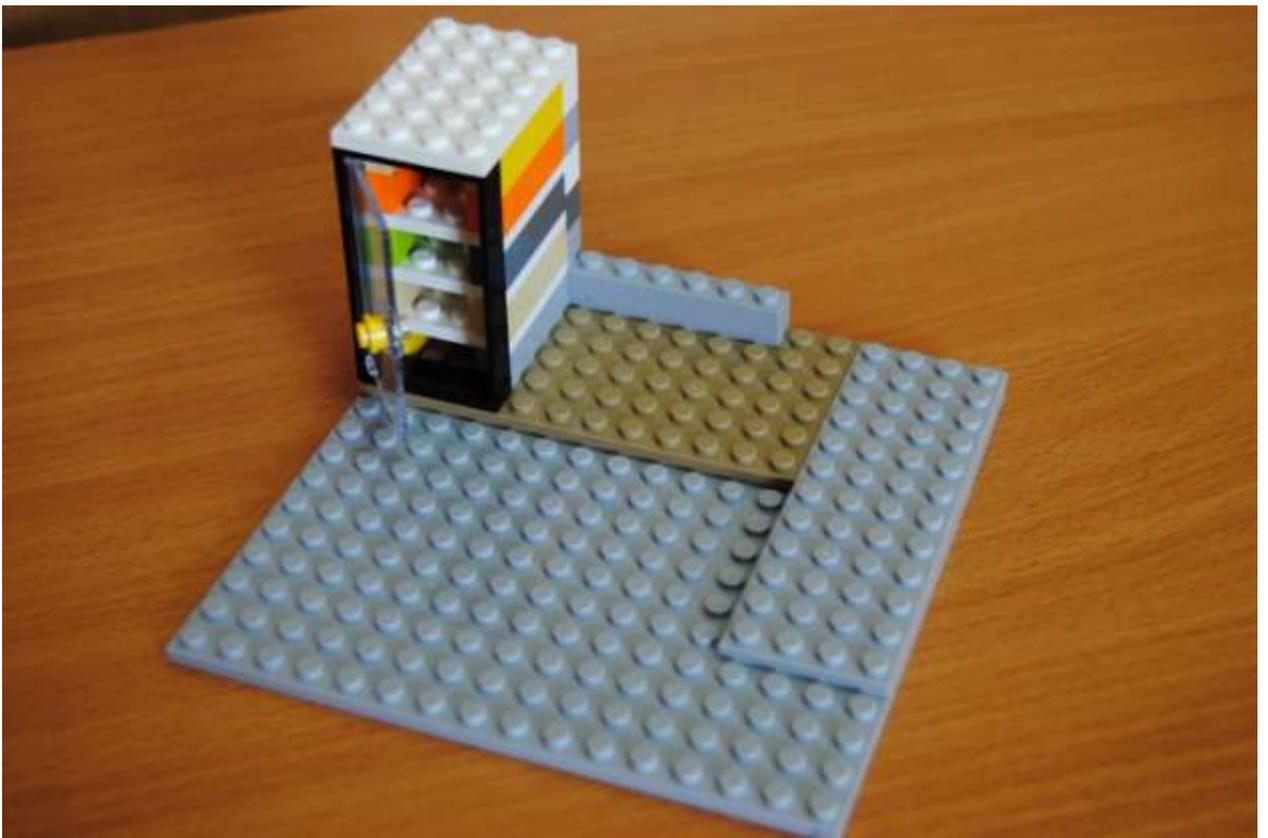

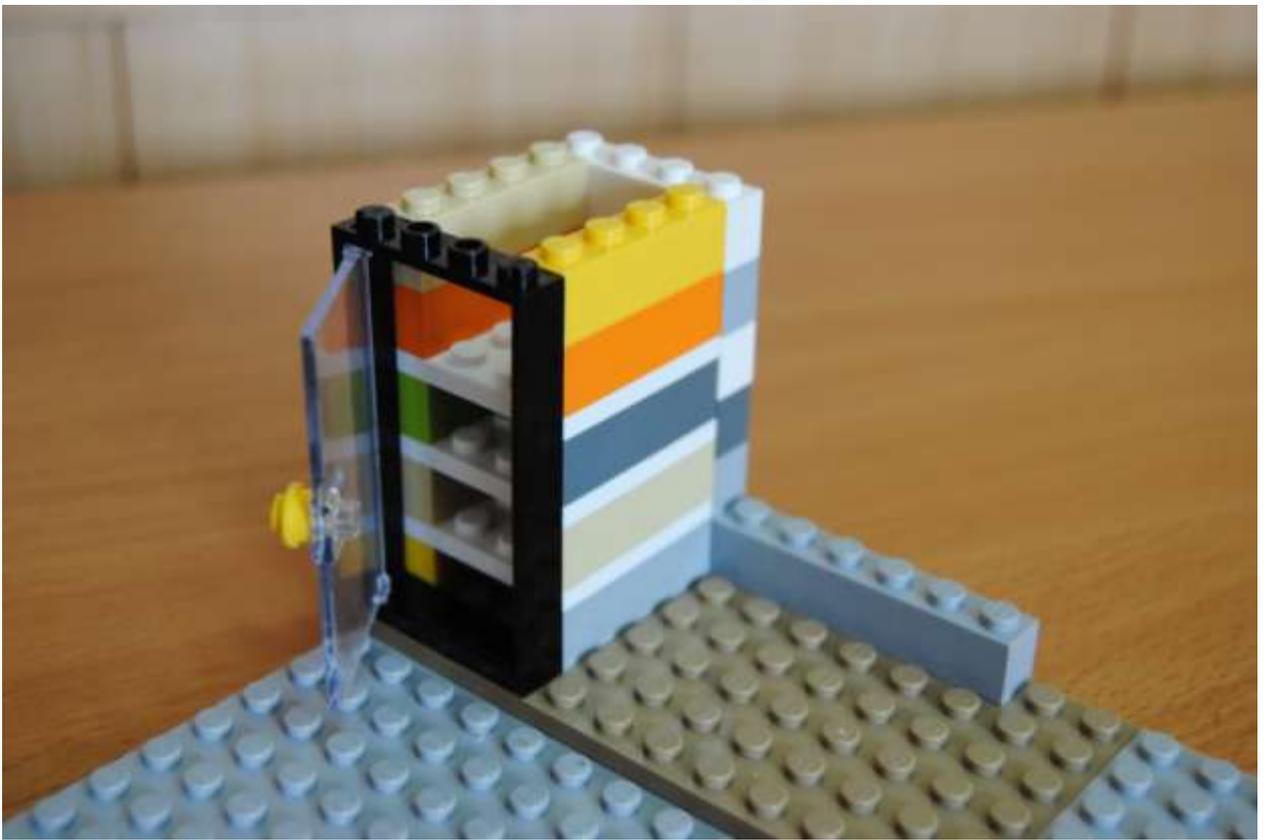

У нас получился холодильник с полками.

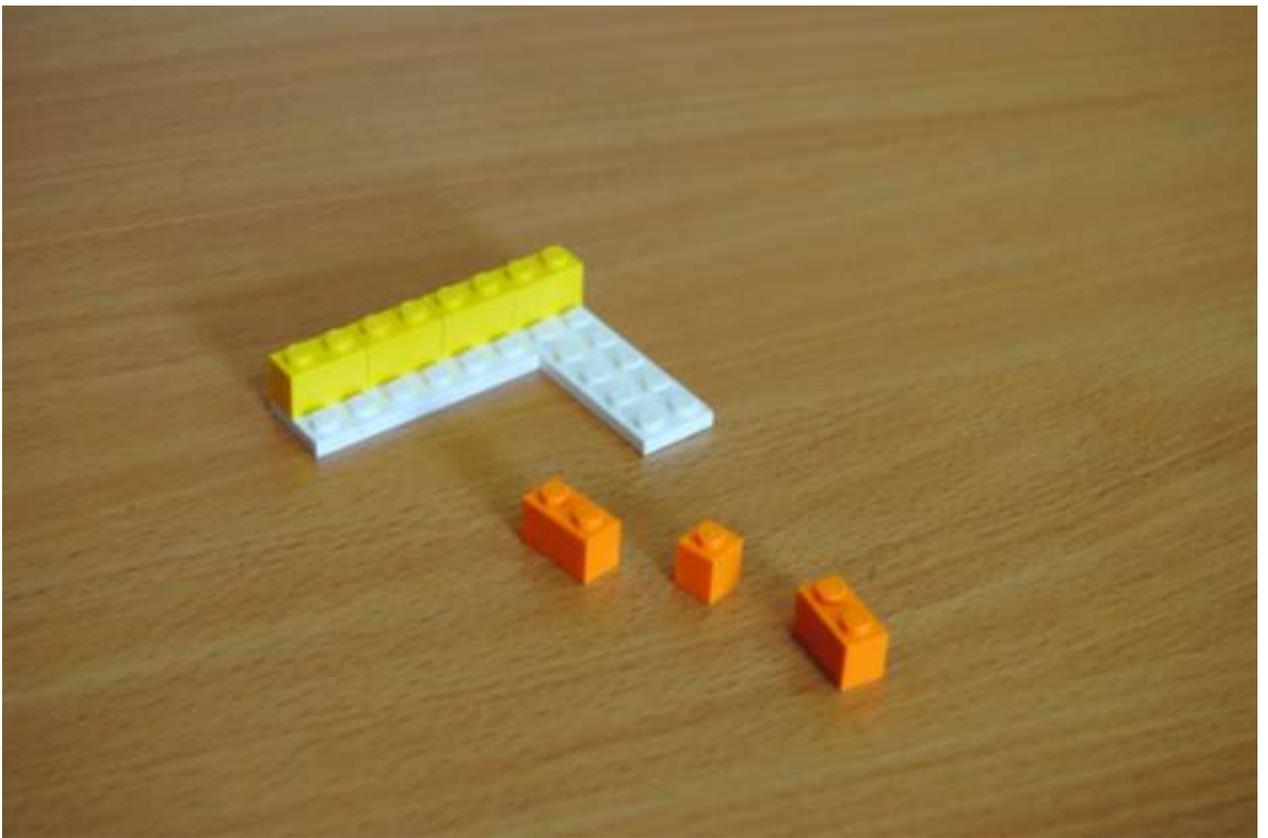

Делаем стол и угловой диван.

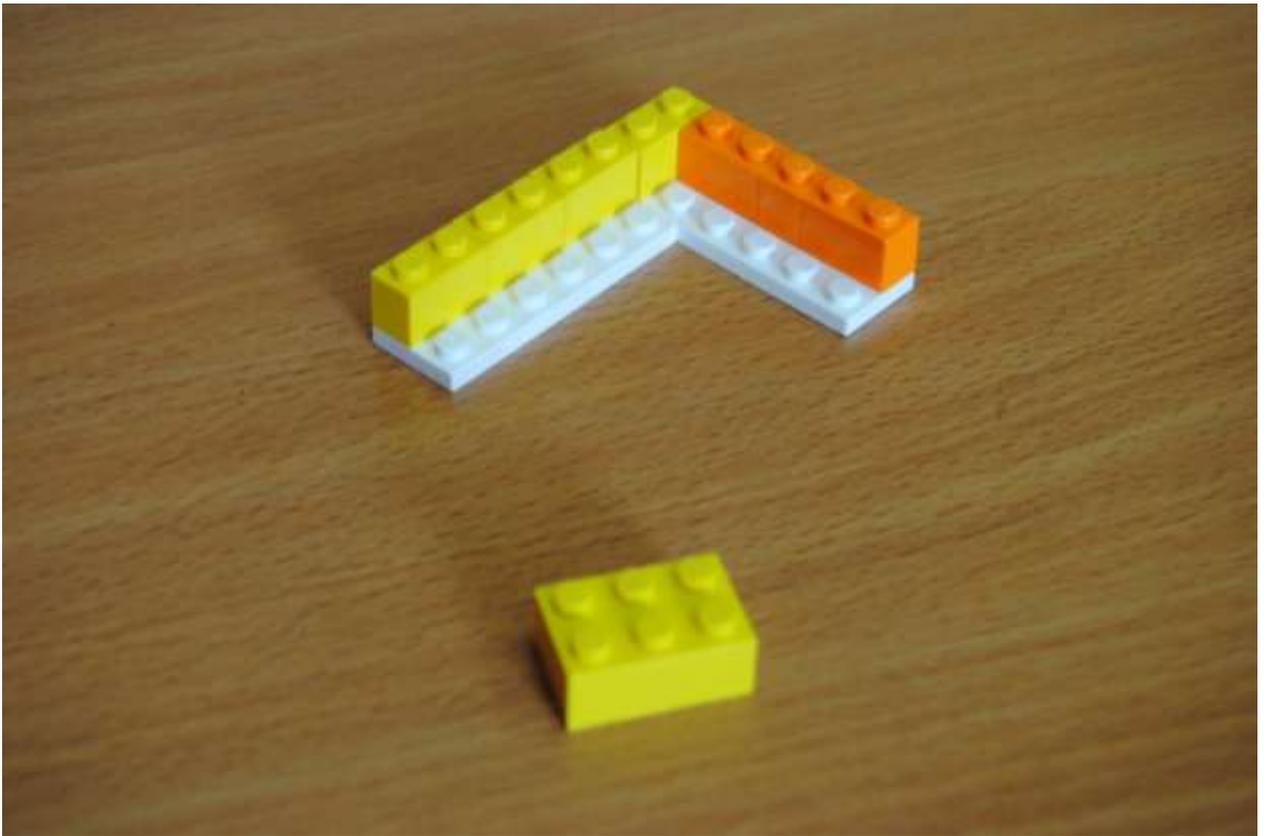

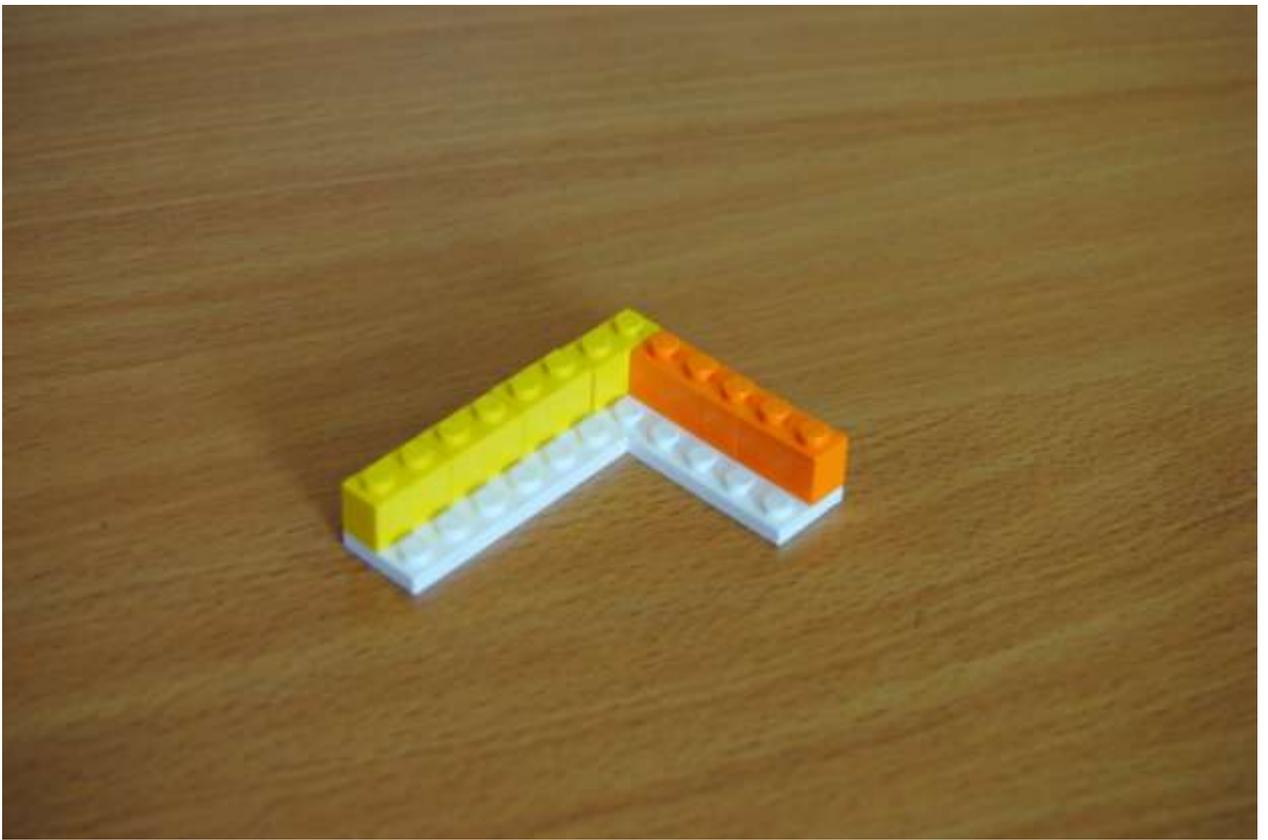

Делаем угловой диван.

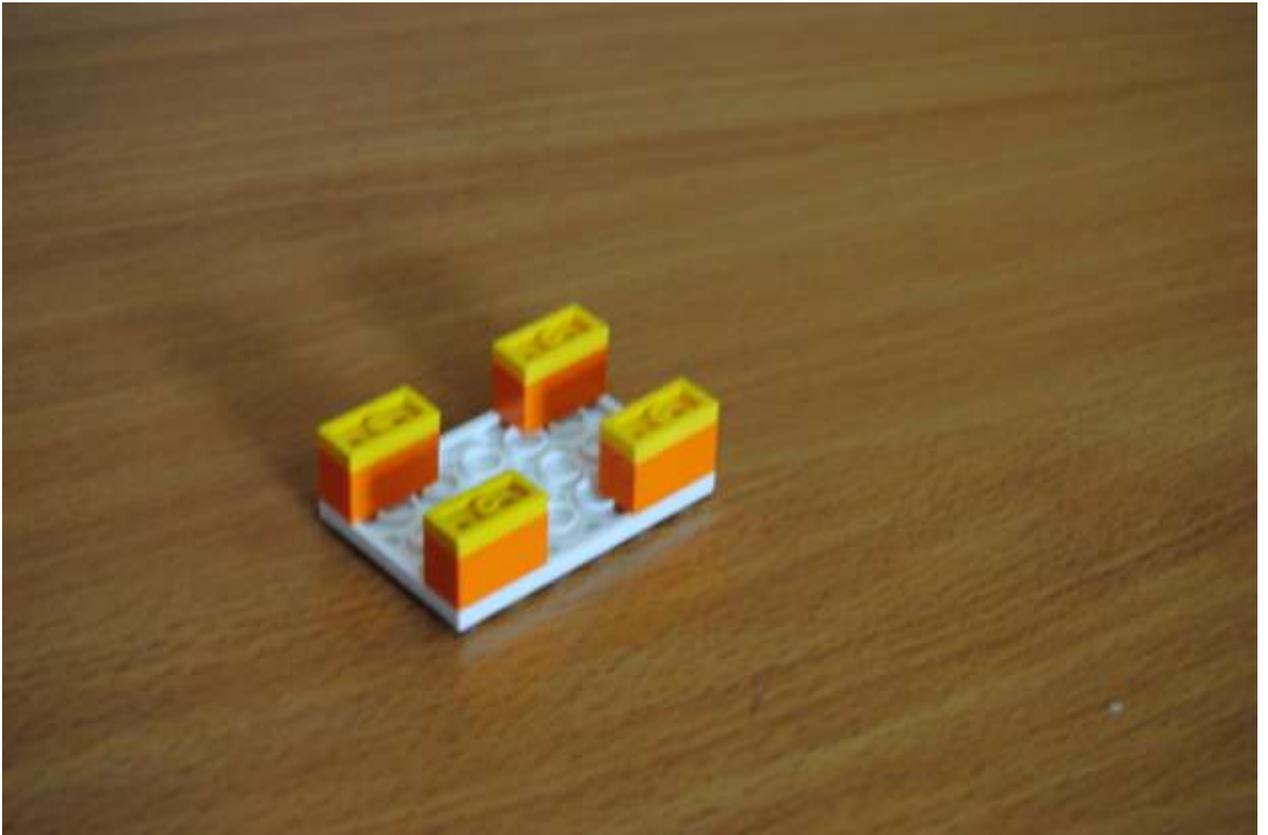

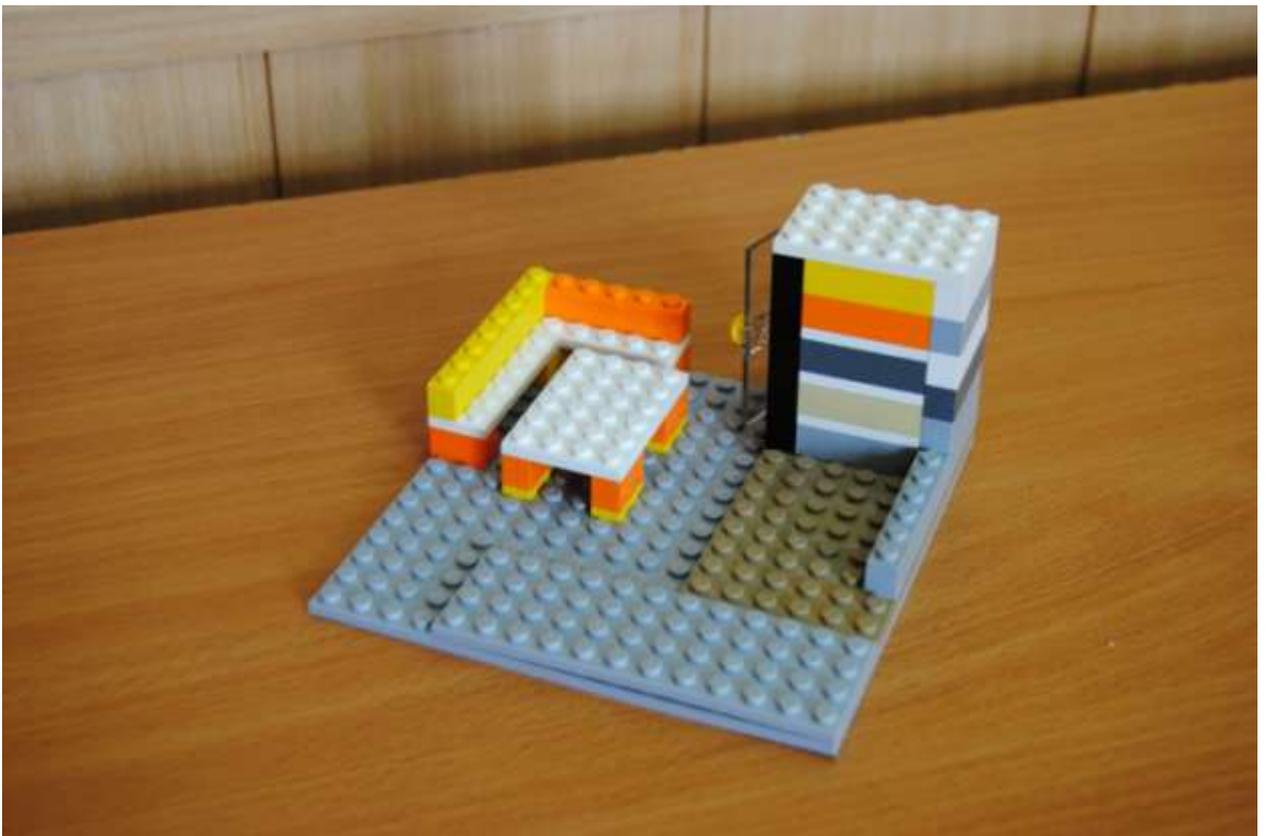

У нас получился диванчик.

Делаем стол.

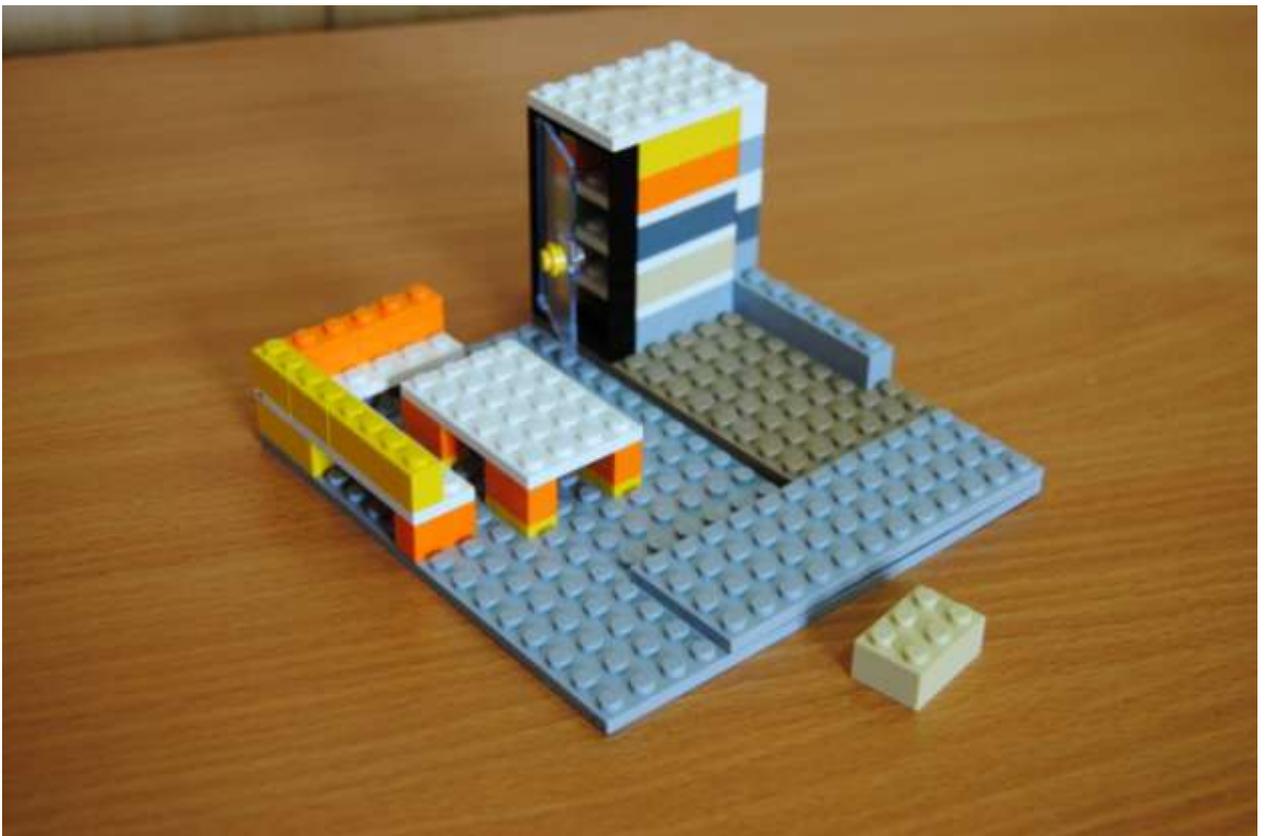

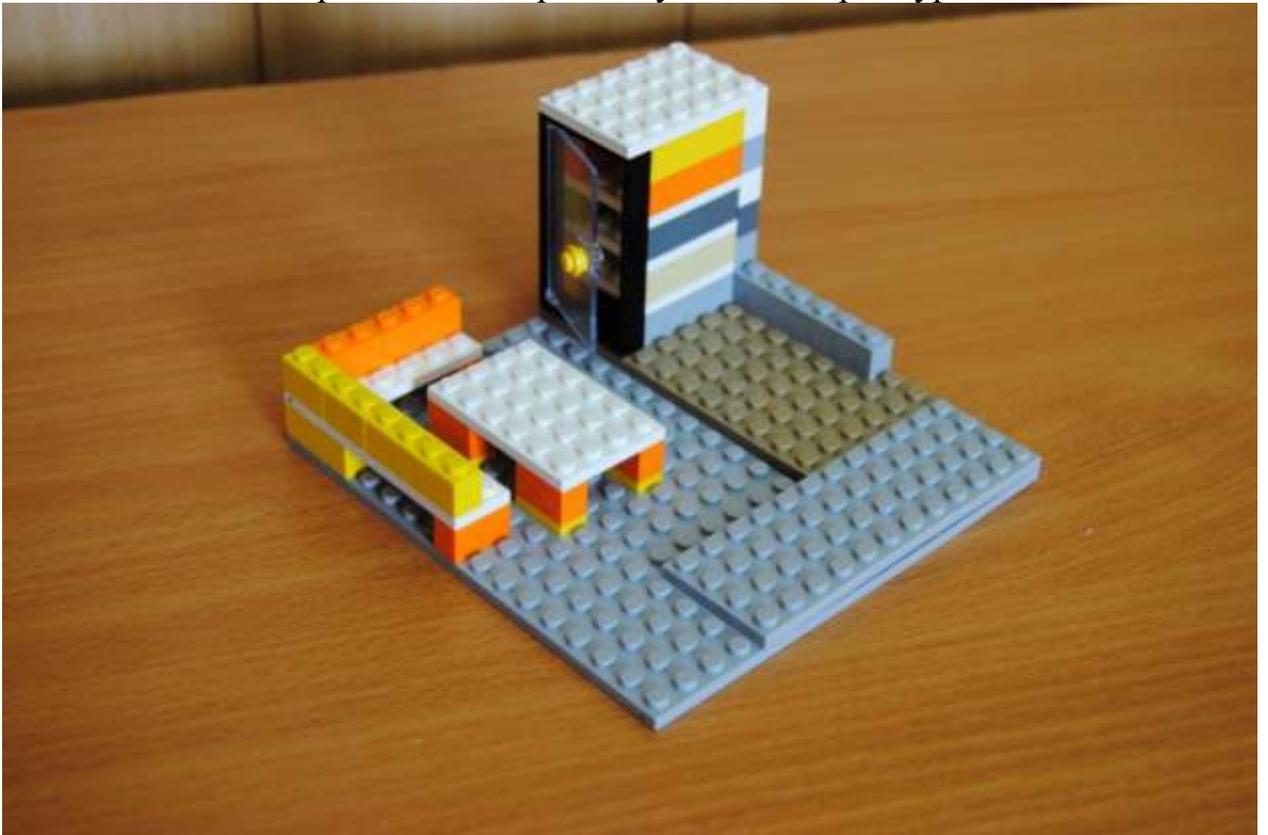

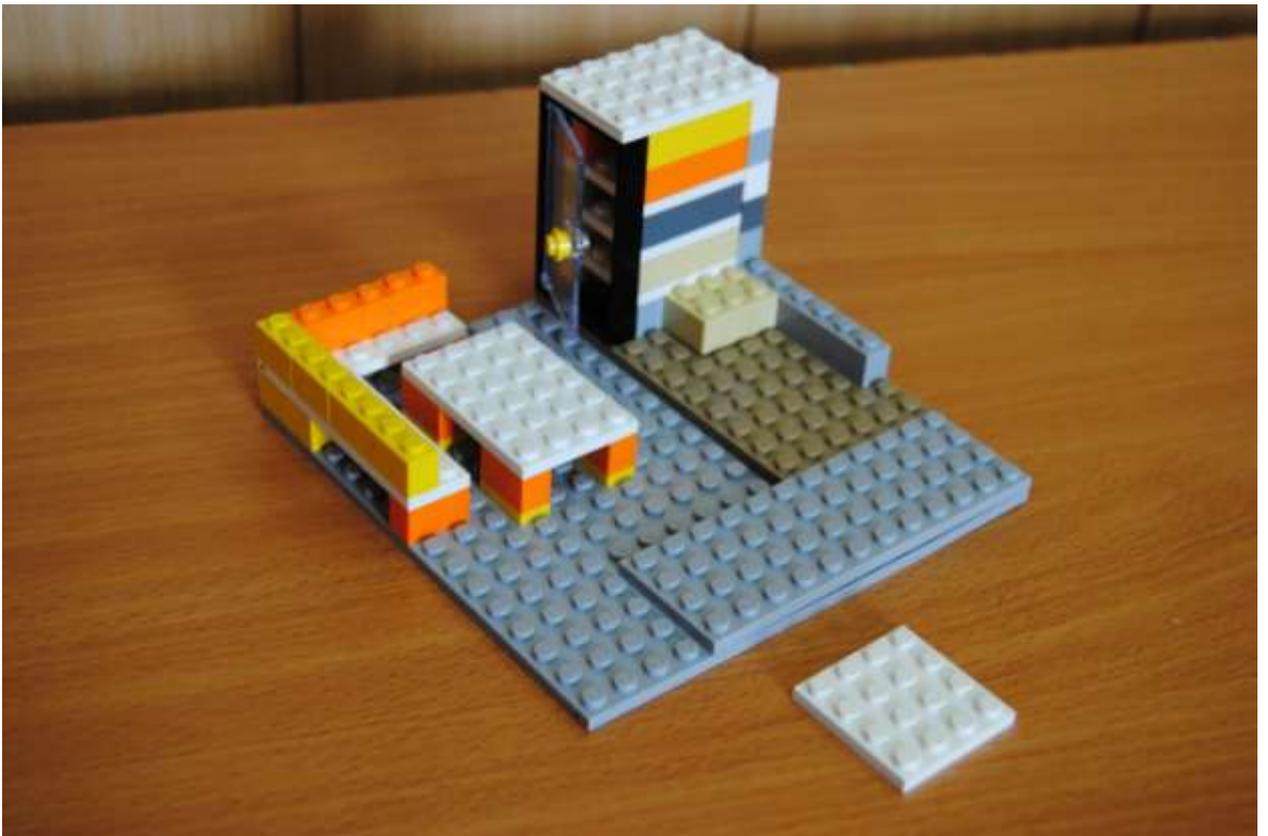

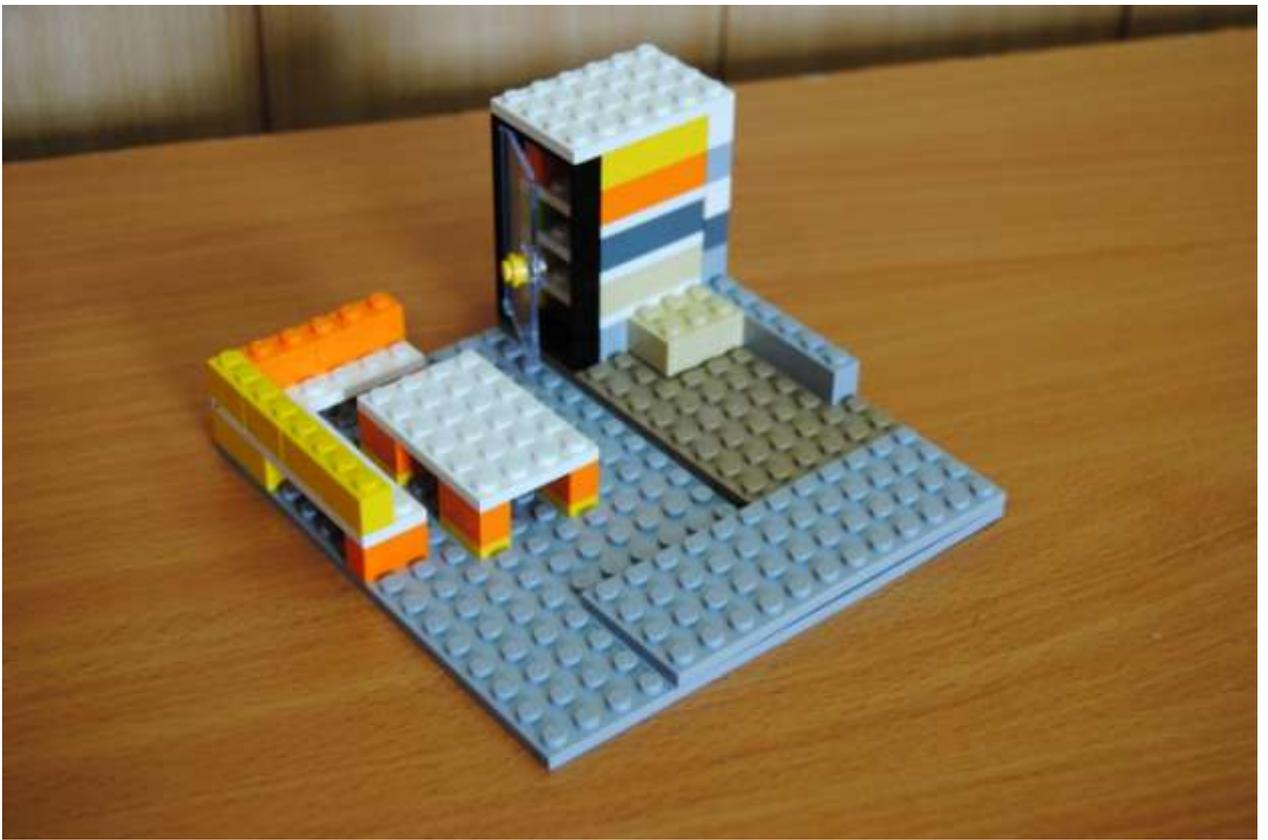

У нас получился стол.

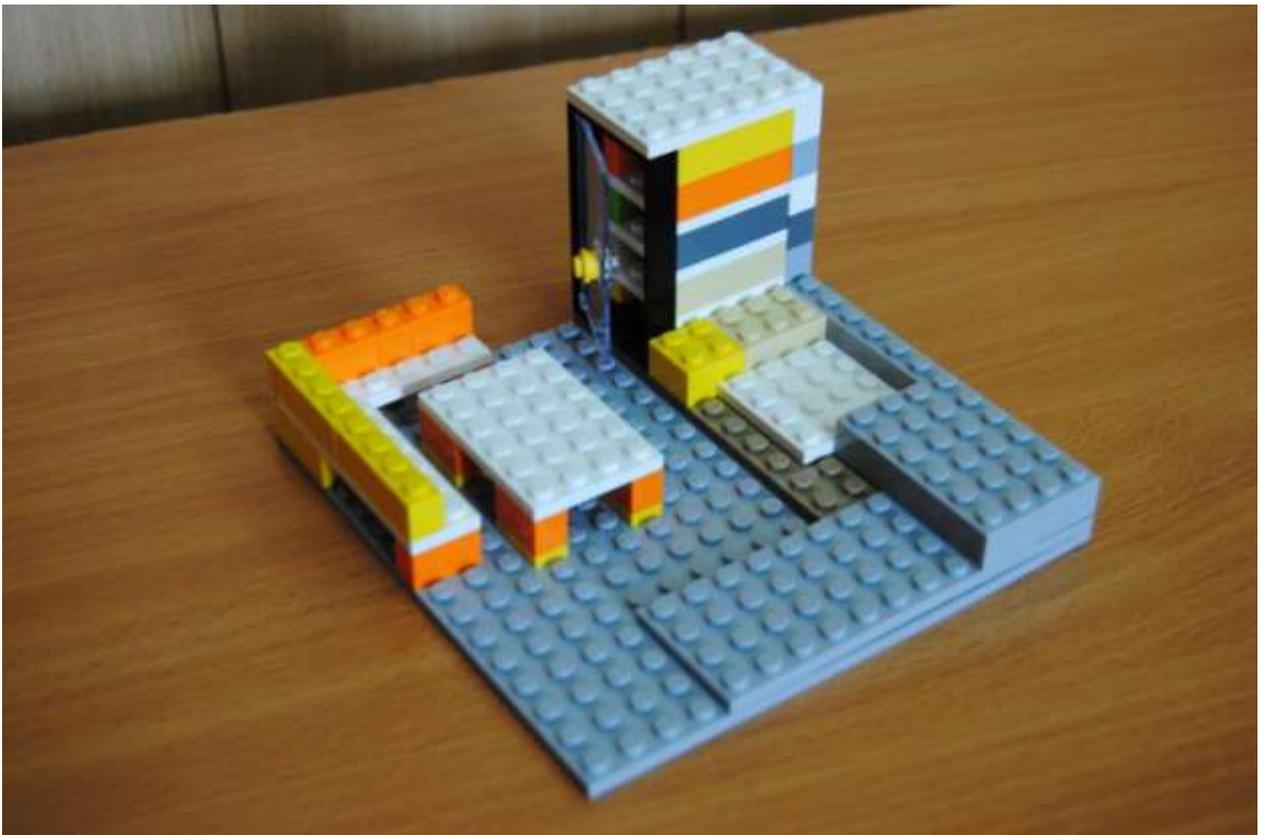

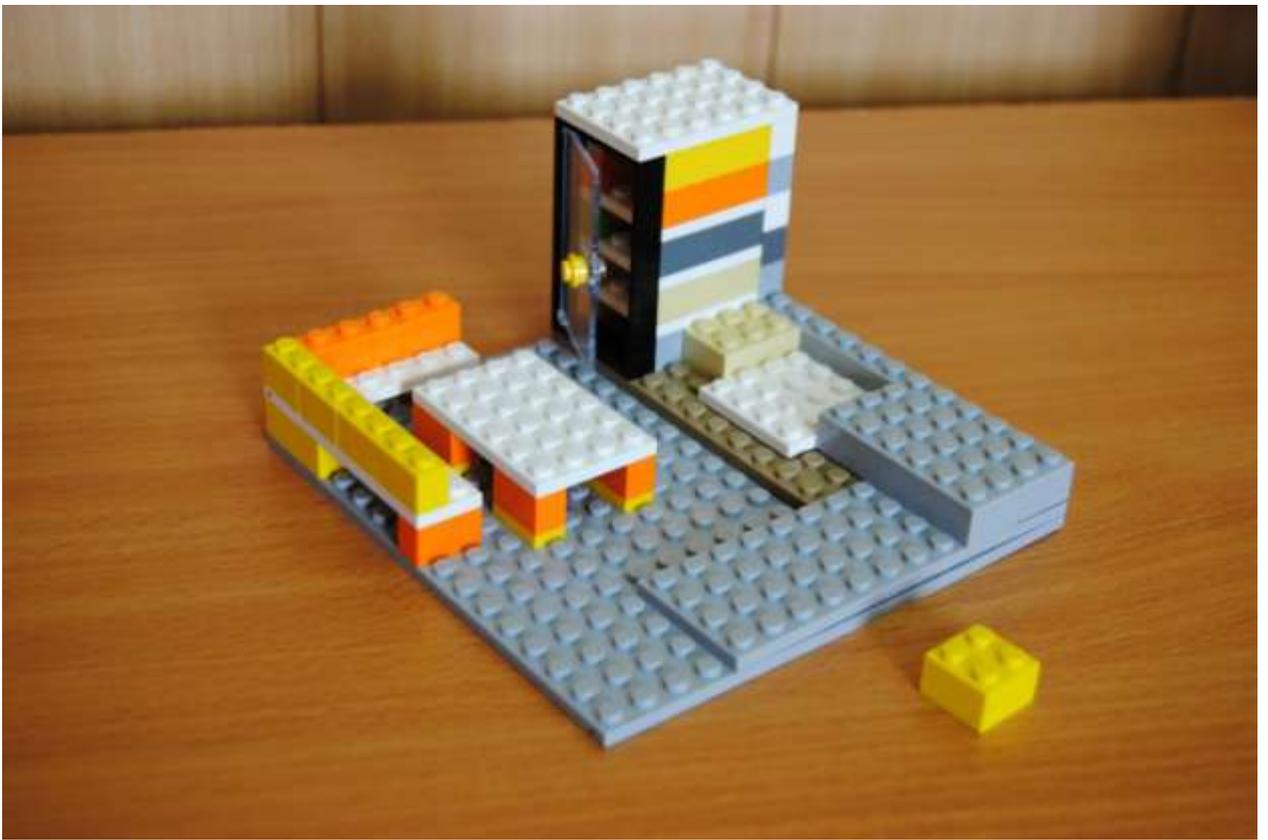

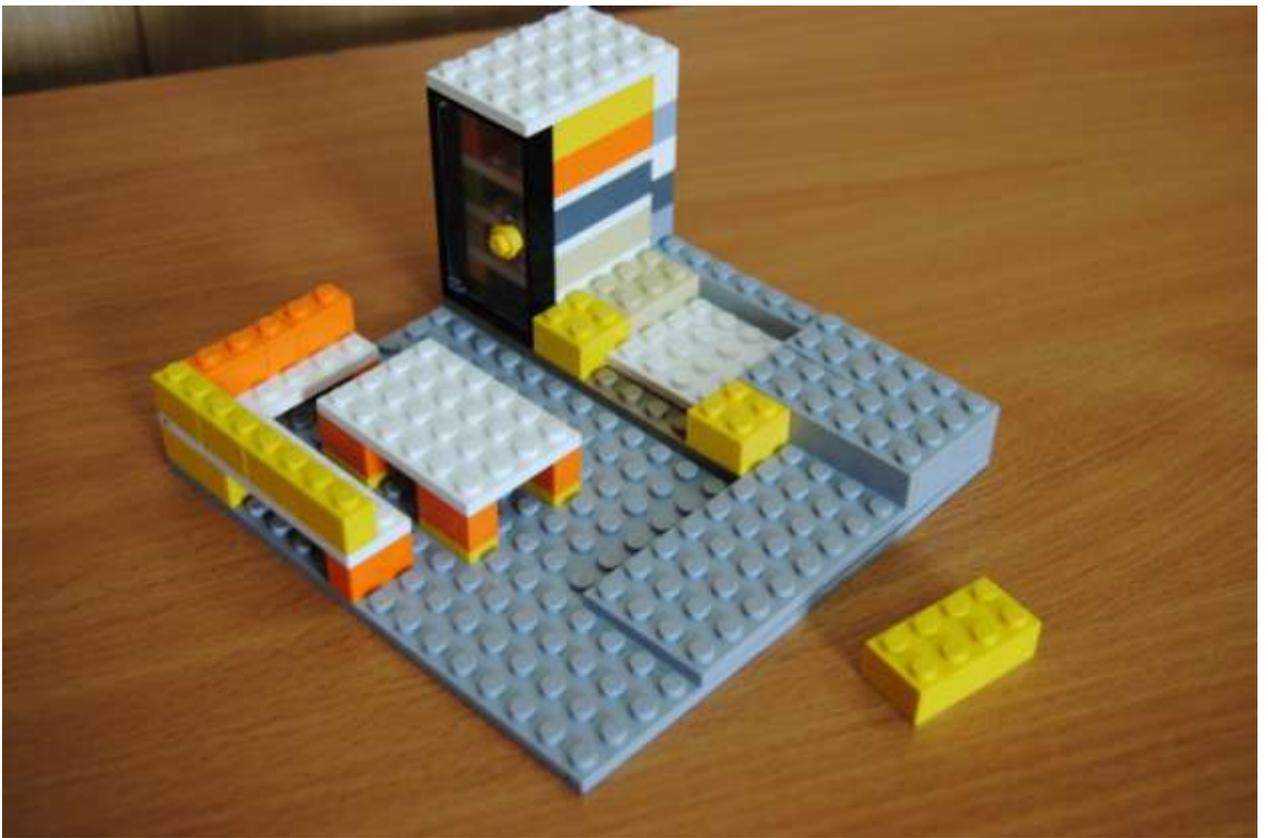

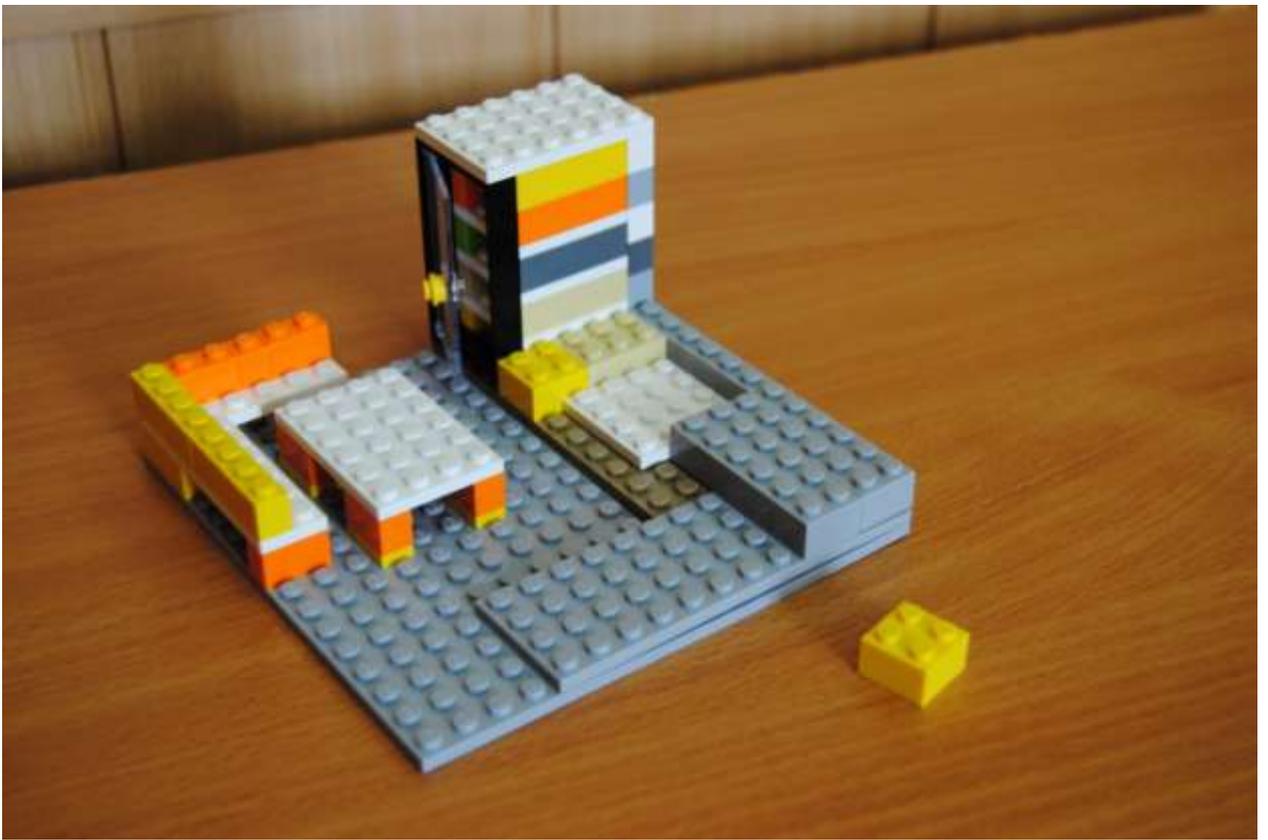

Ставим его на нашу кухню.

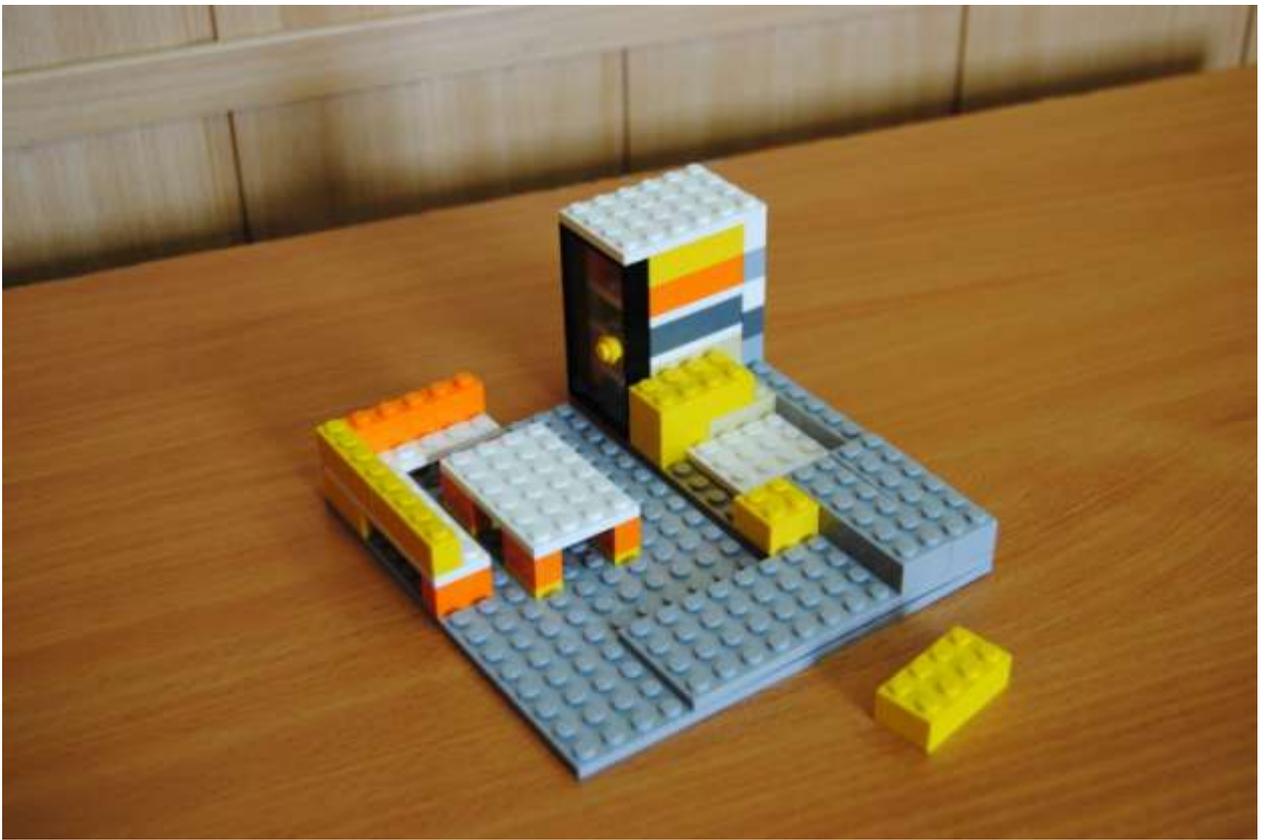

Продолжаем строить кухонный гарнитур.

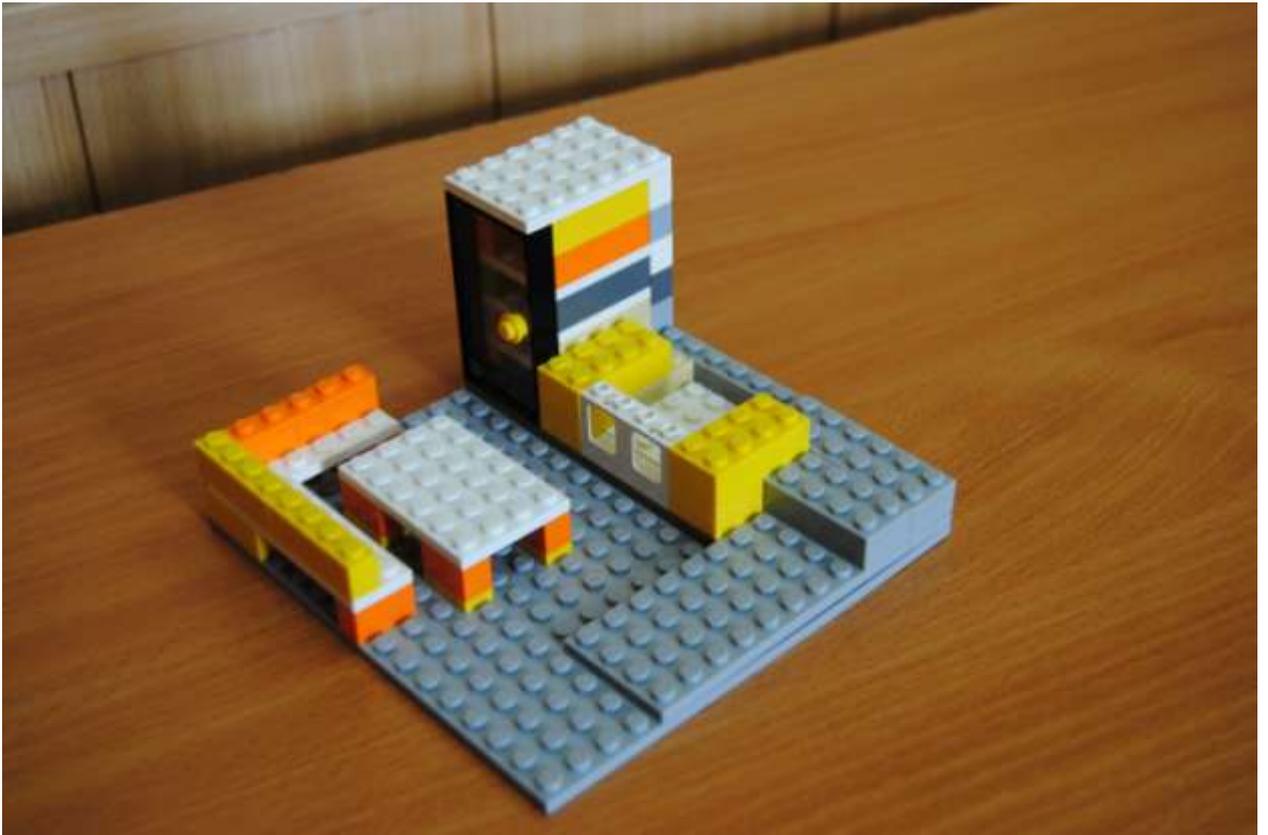

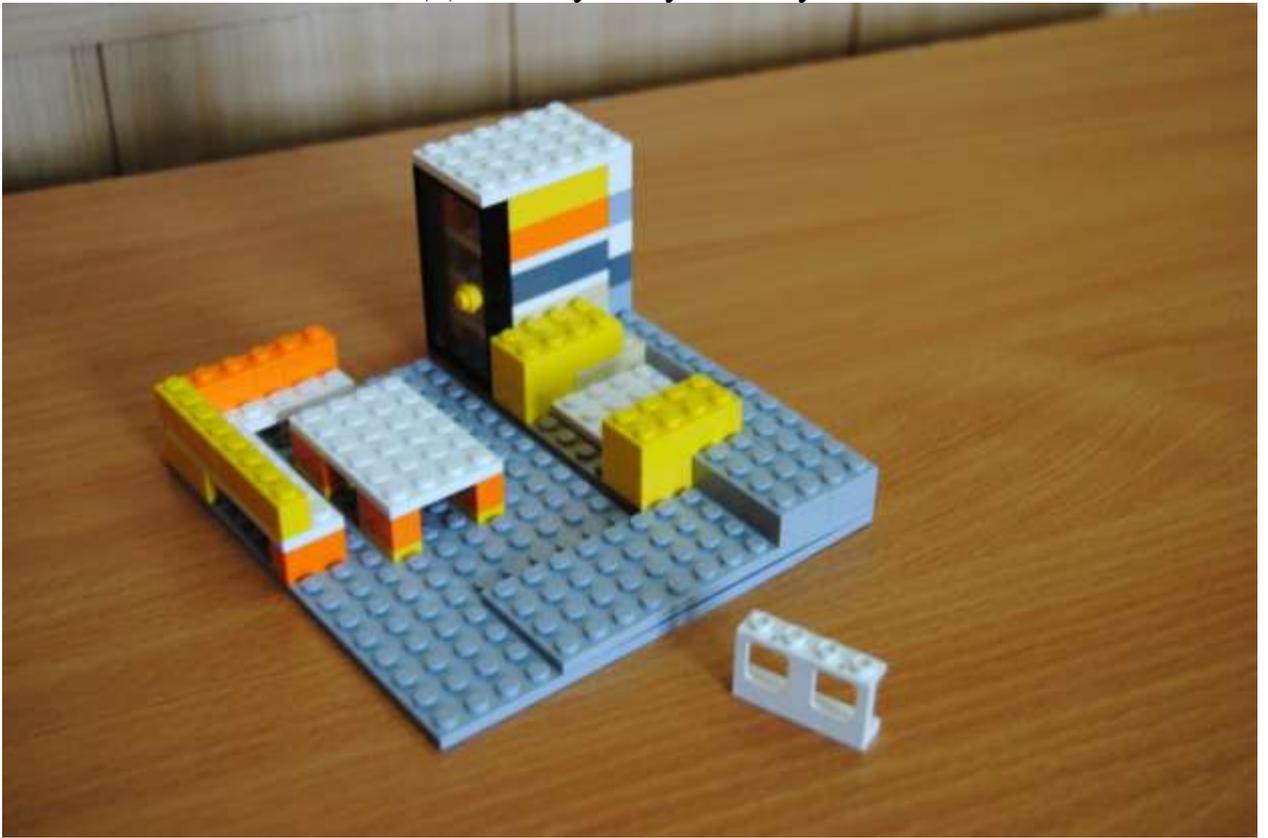

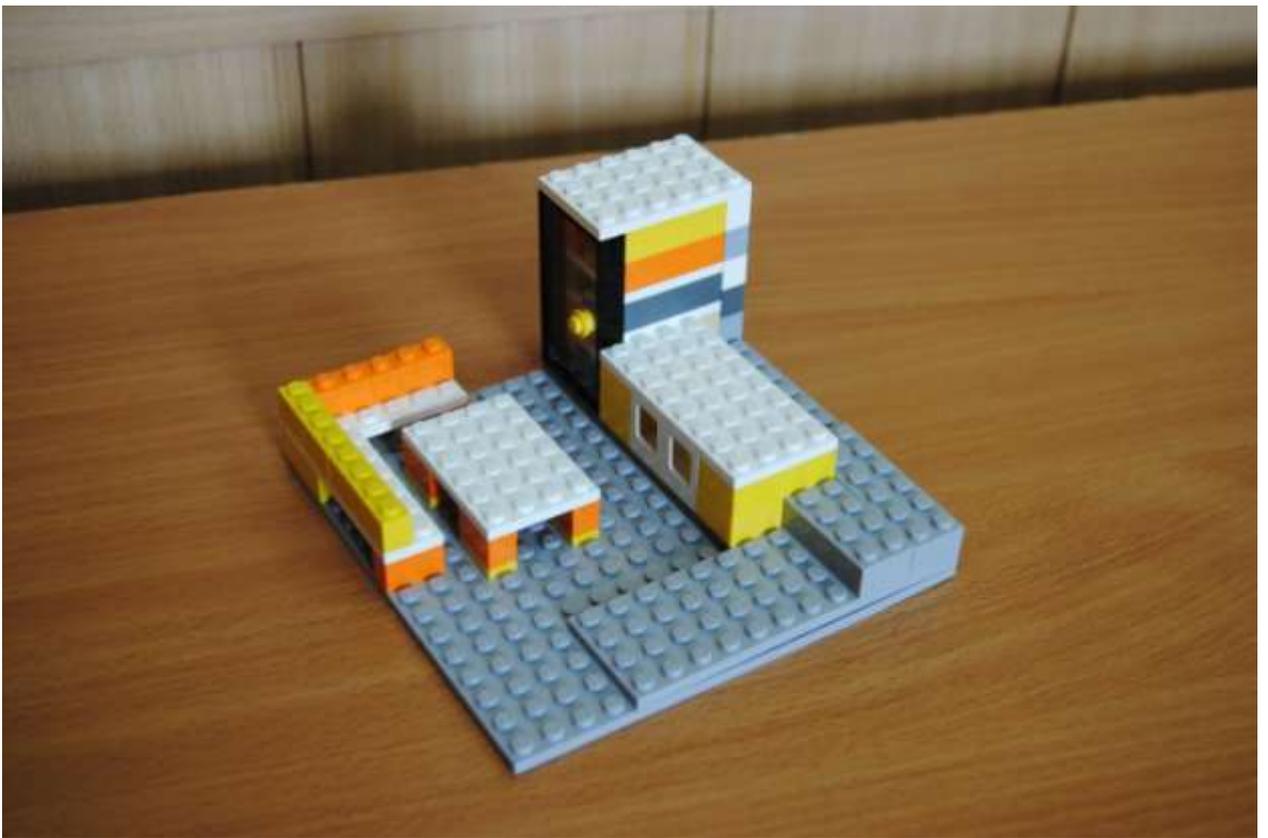

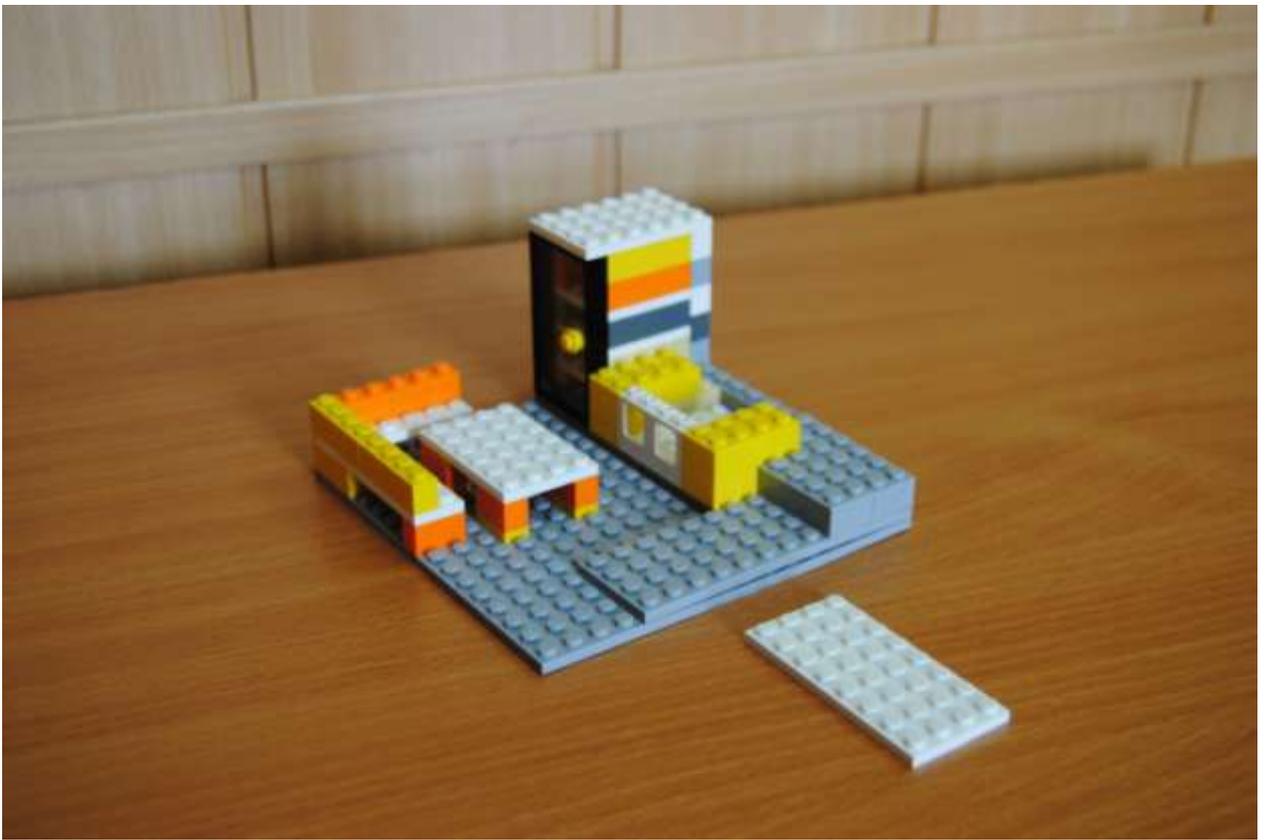

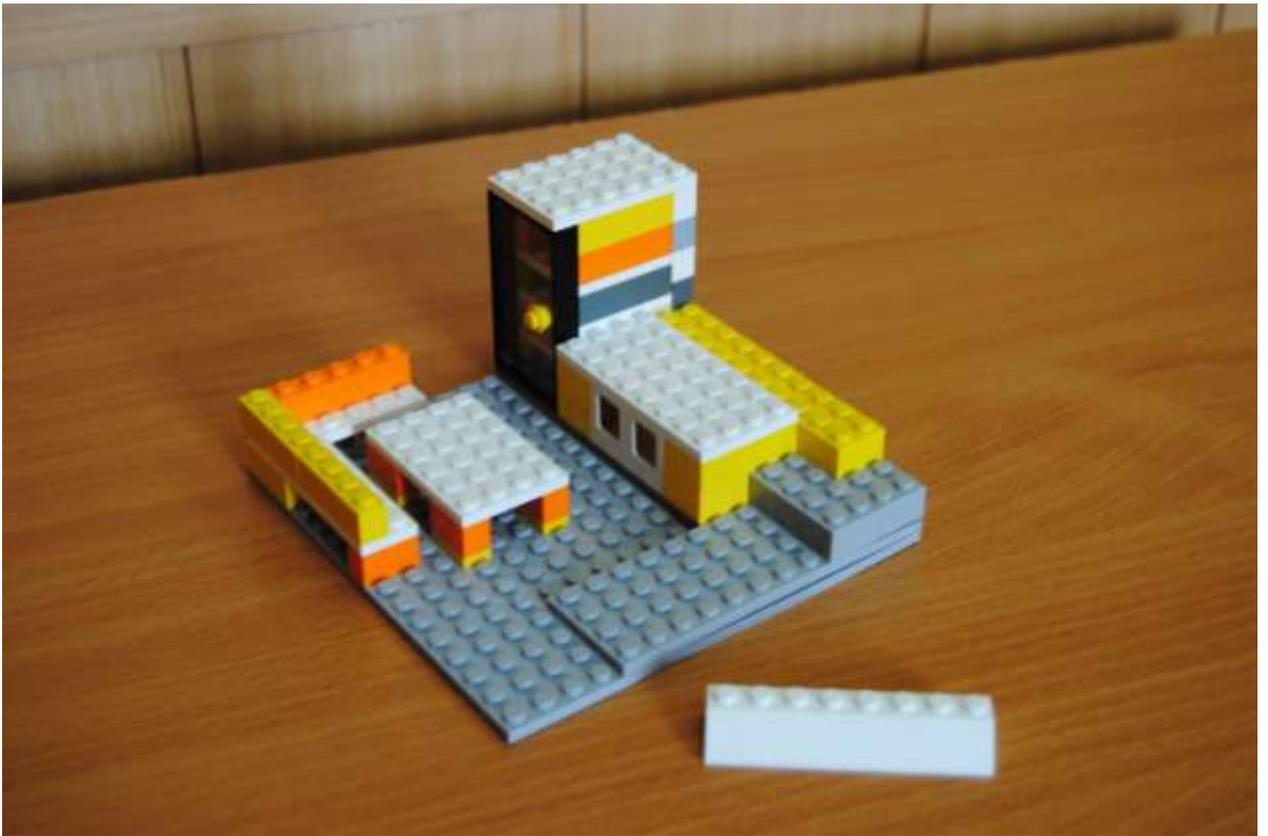

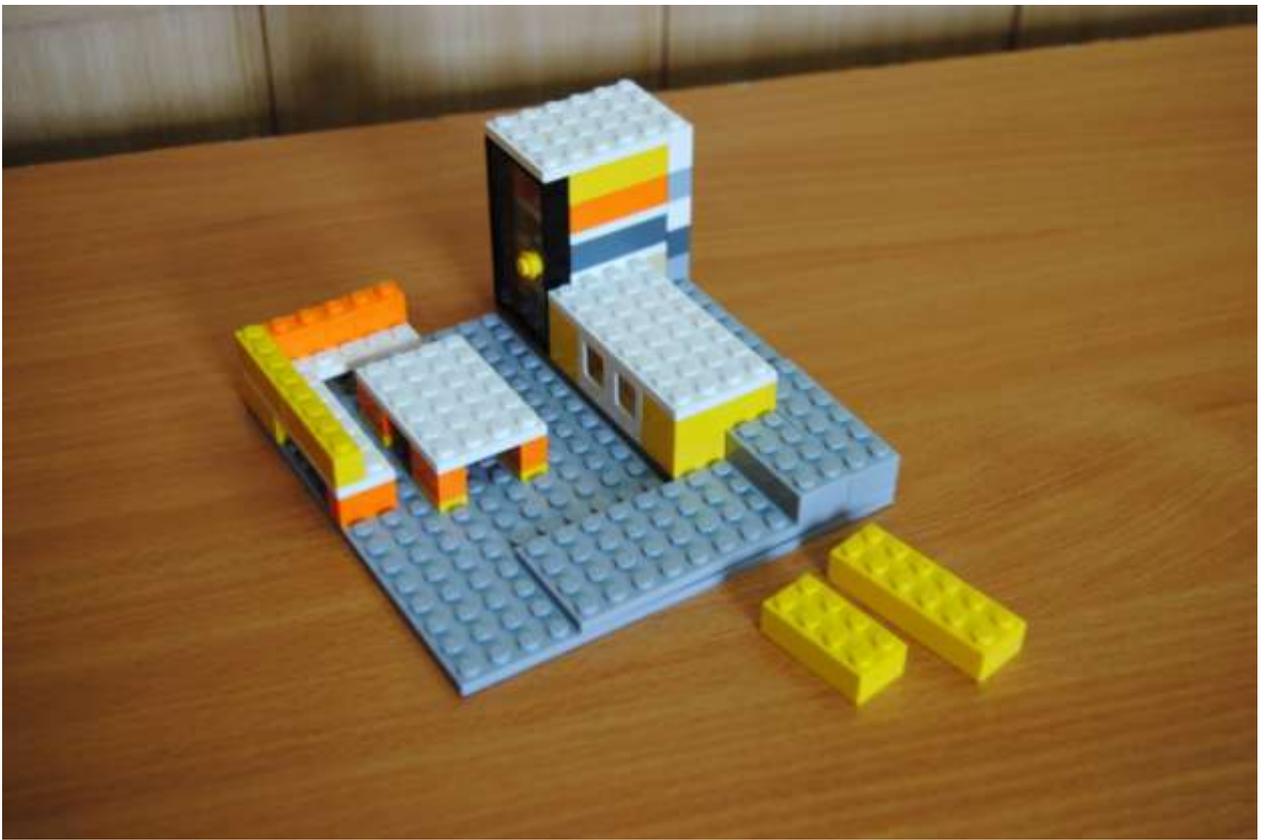

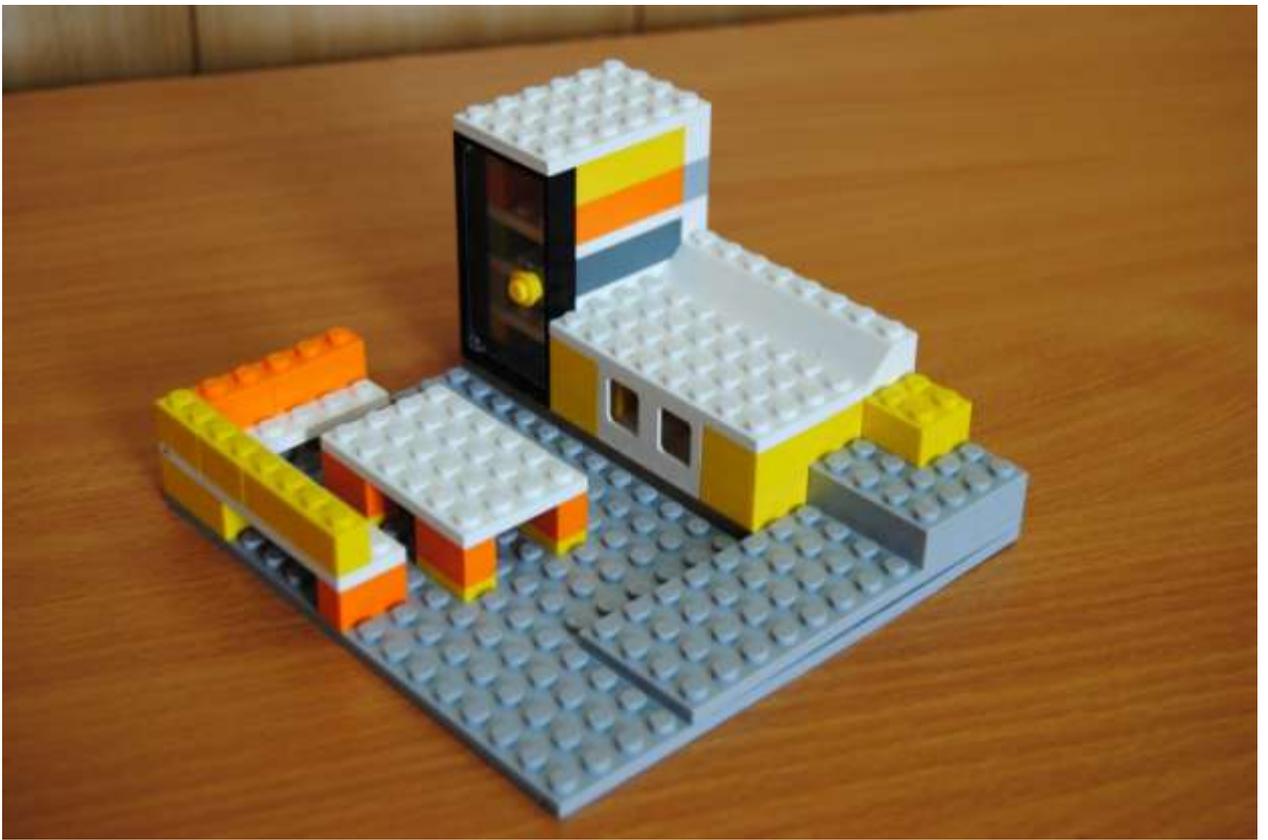

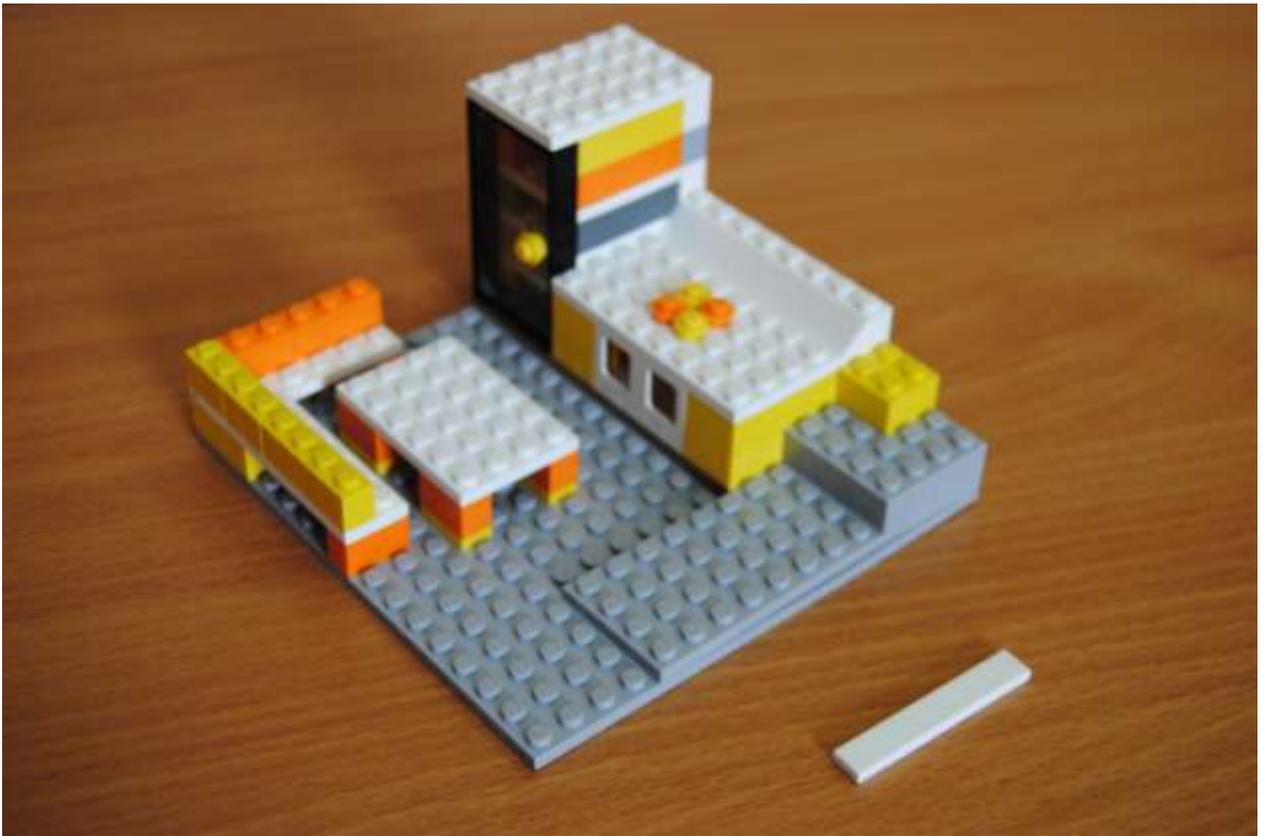

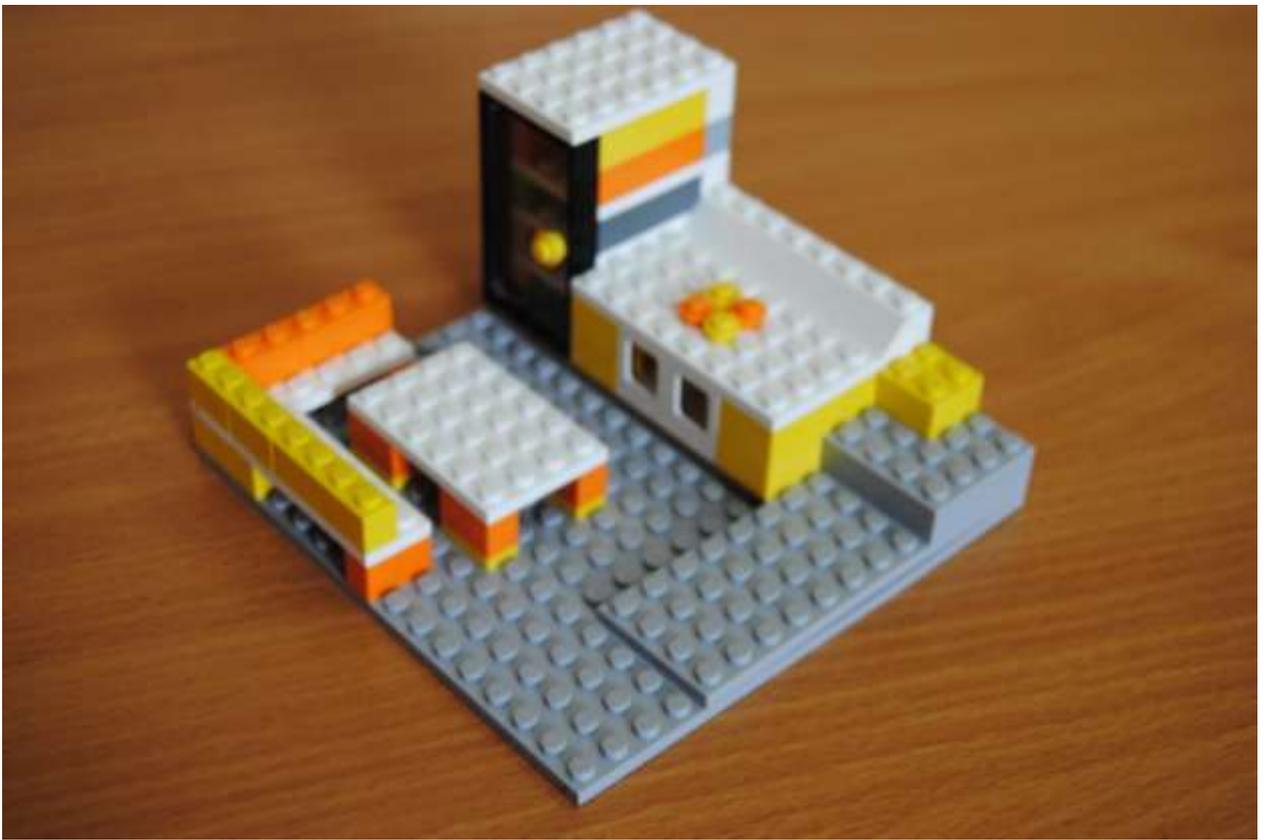

Делаем духовку и плиту.

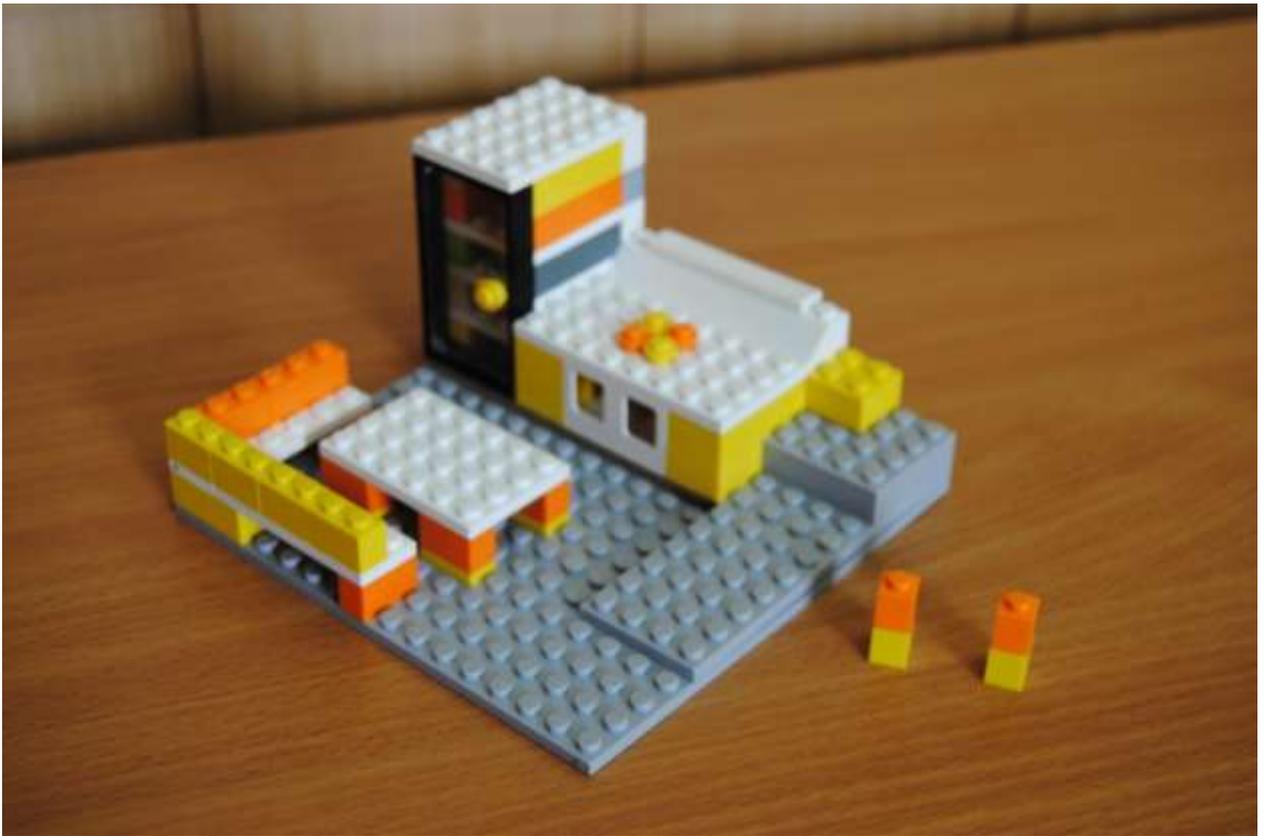

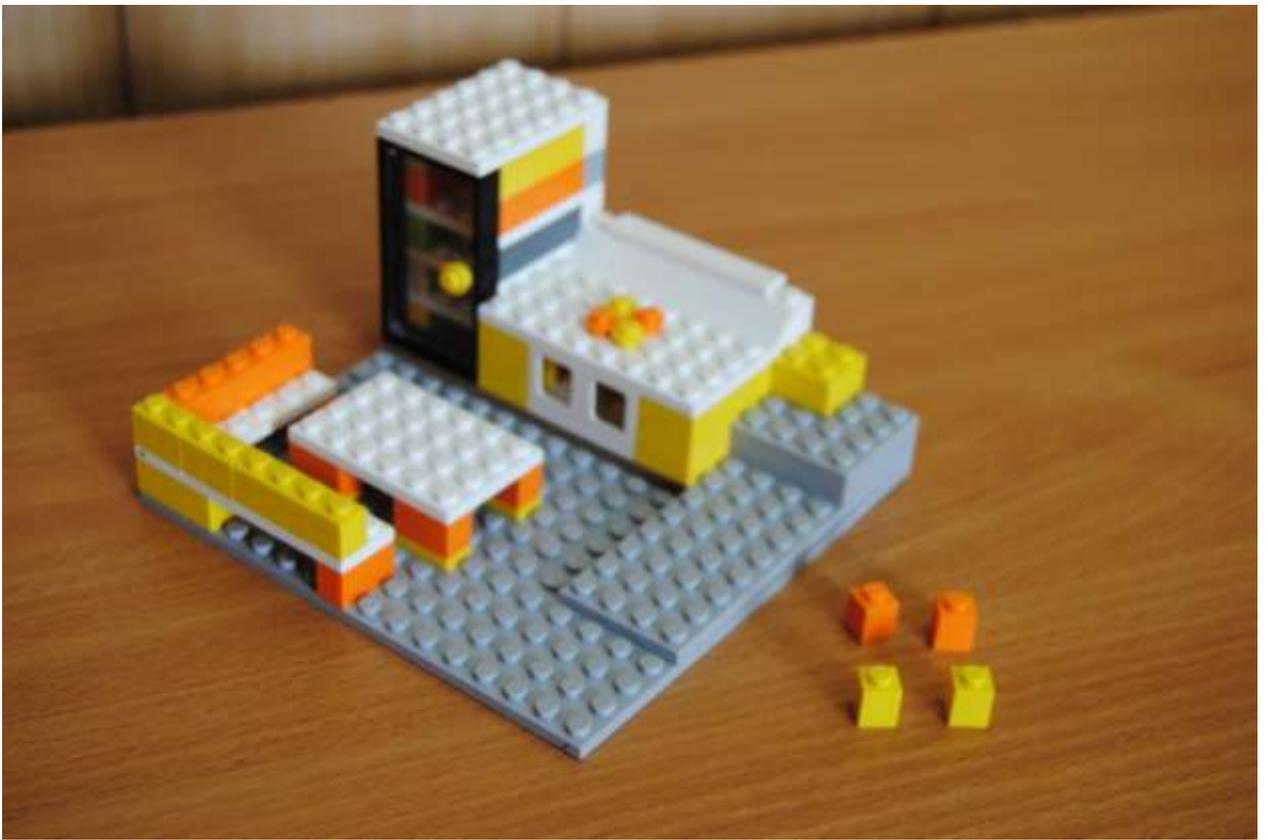

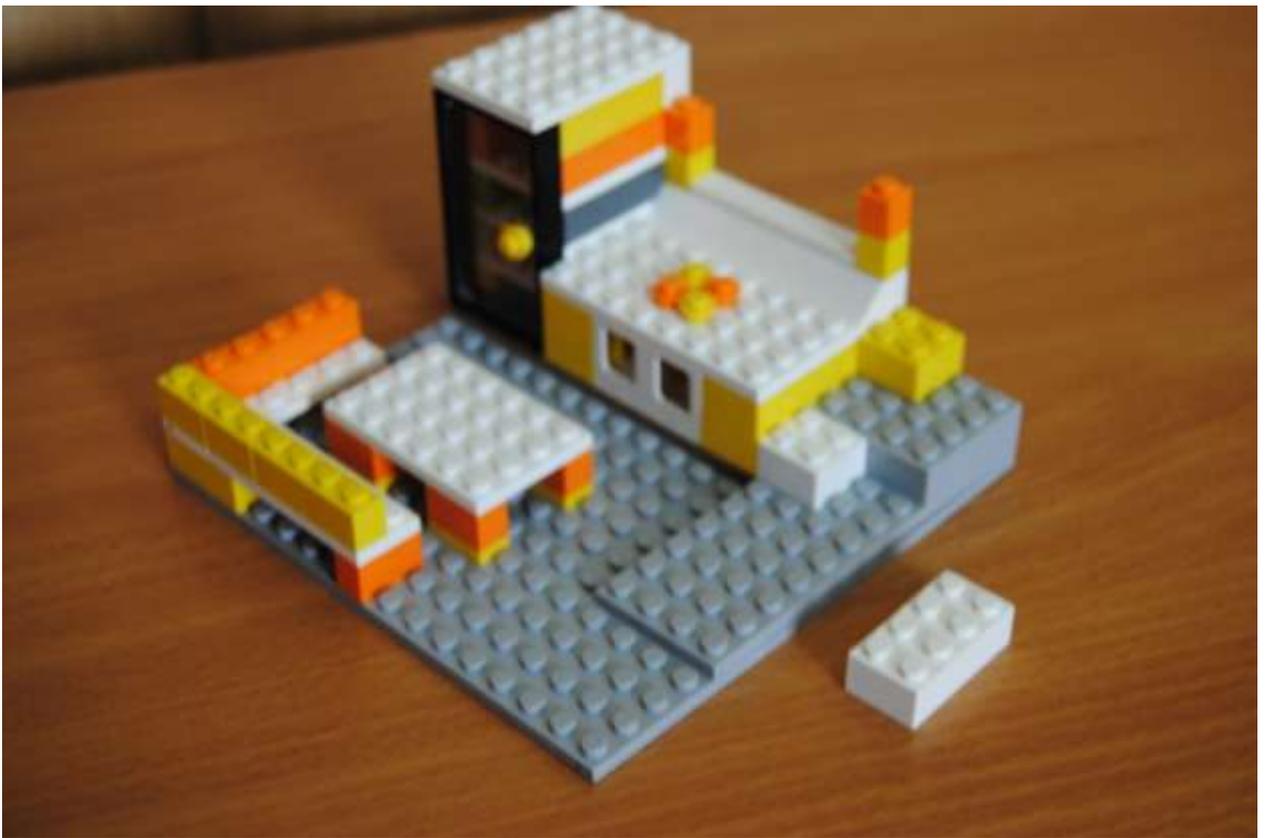

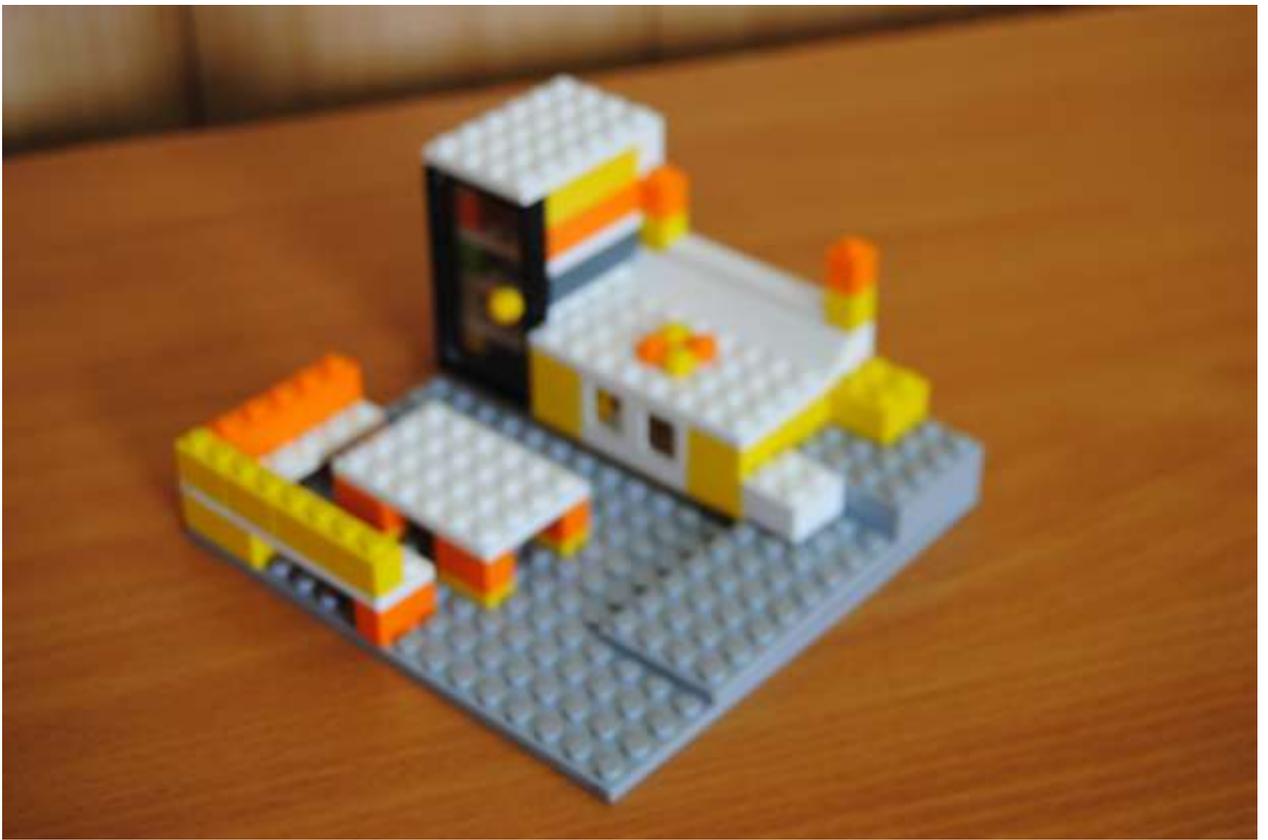

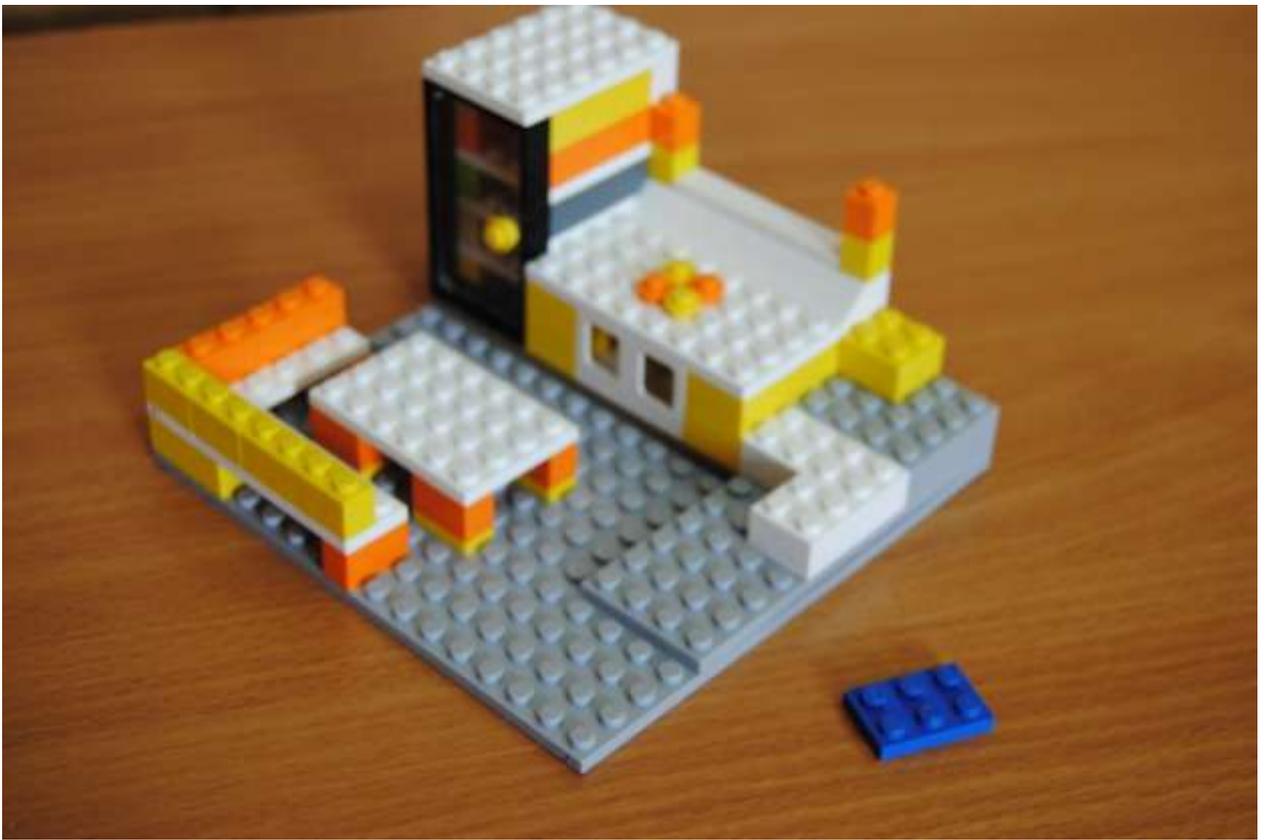

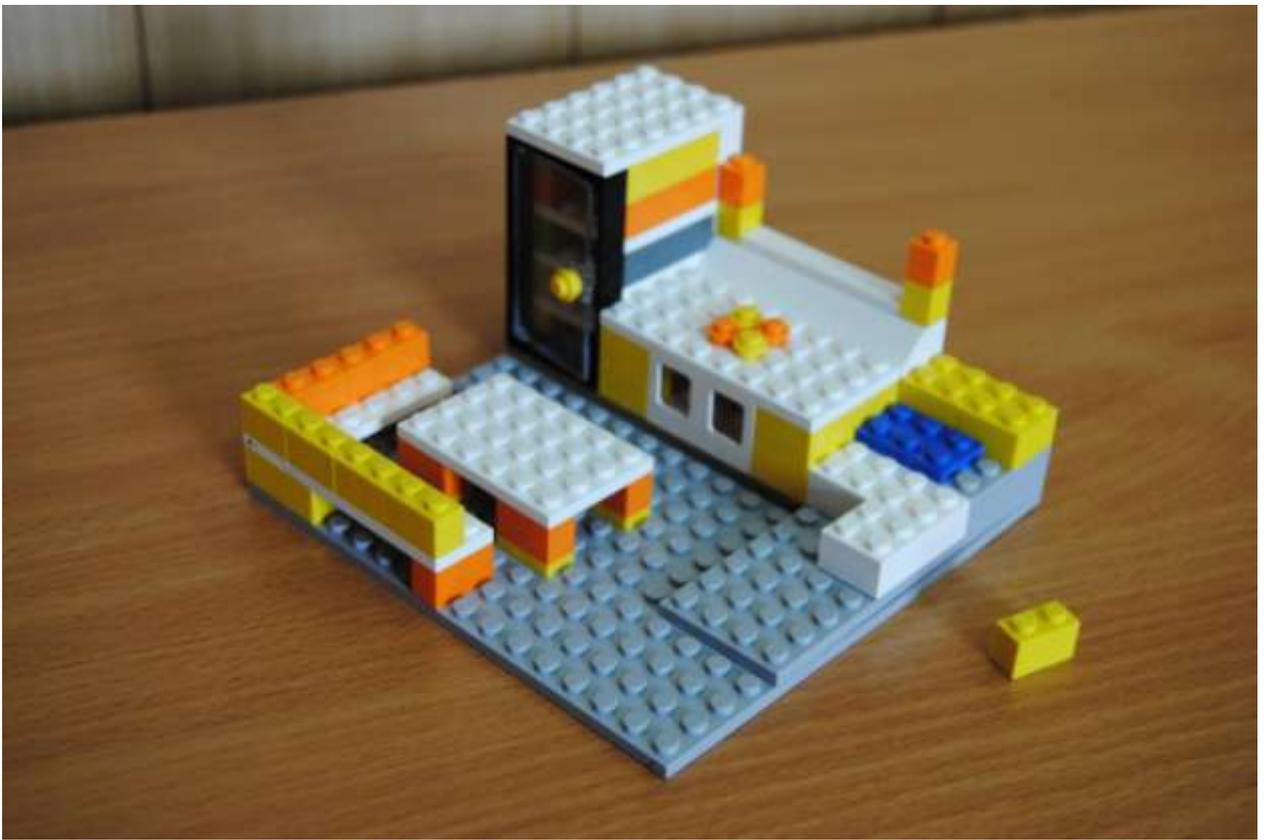

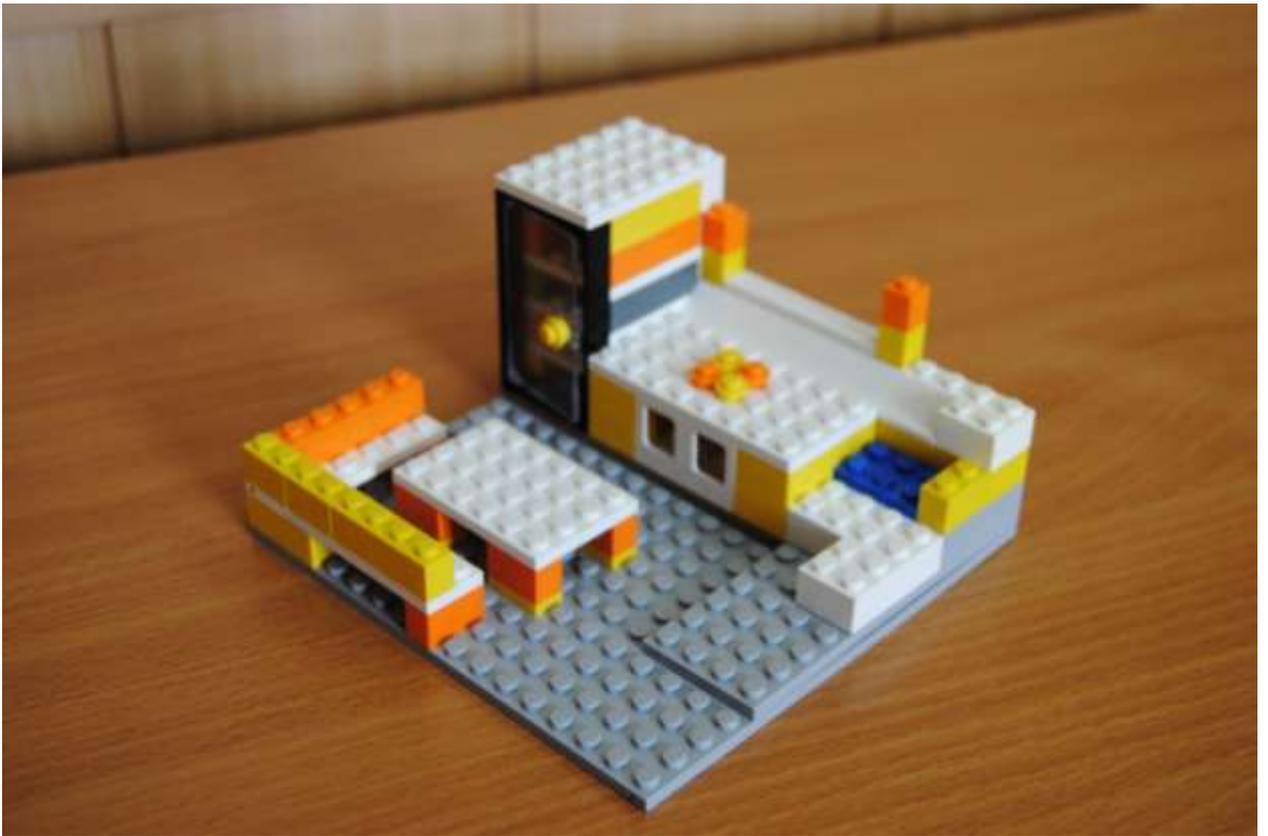

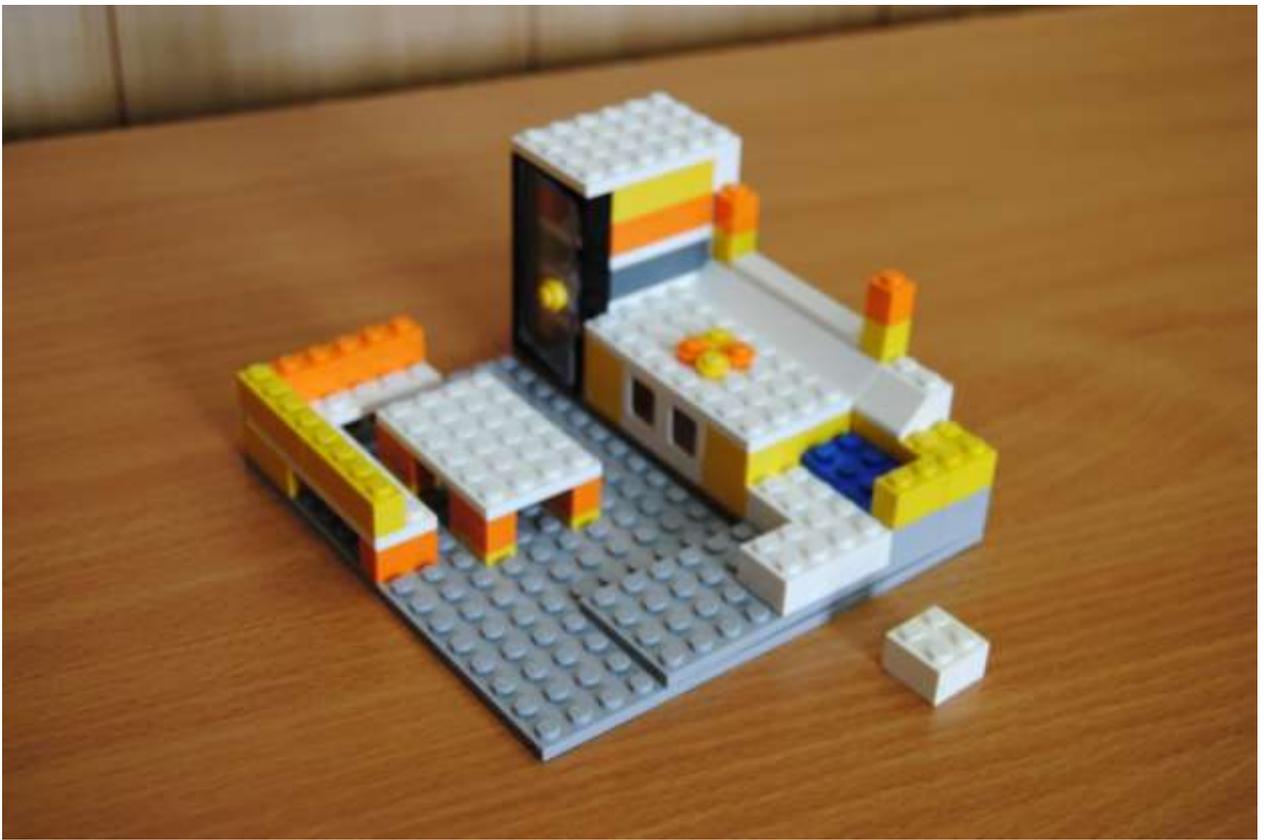

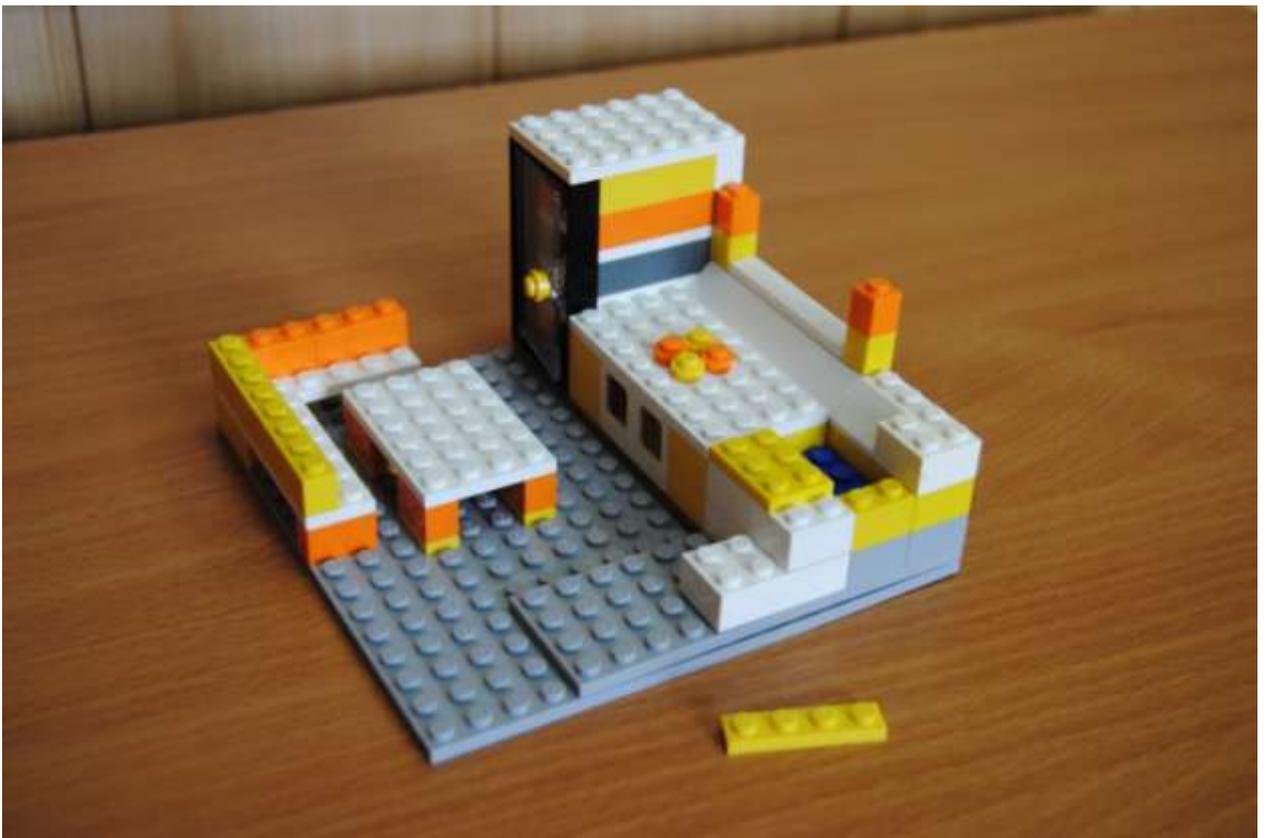

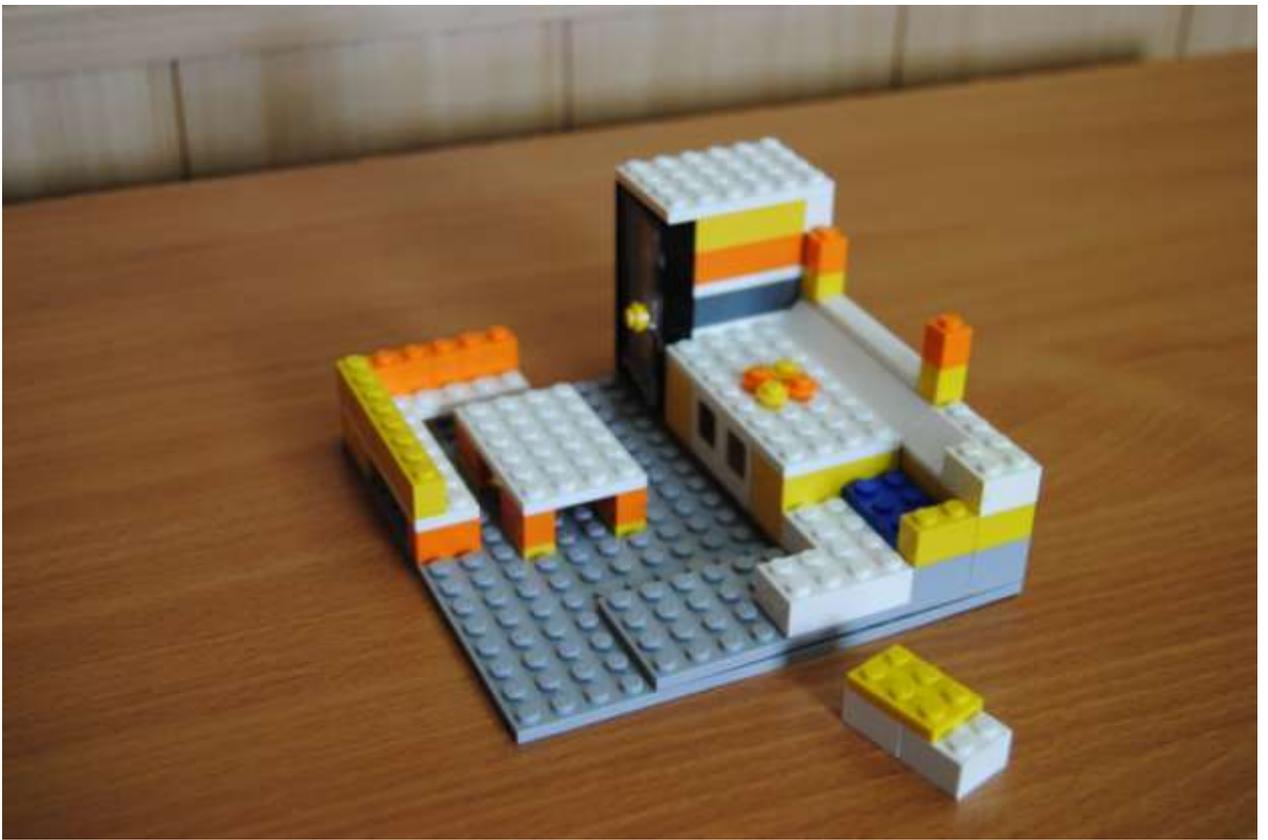

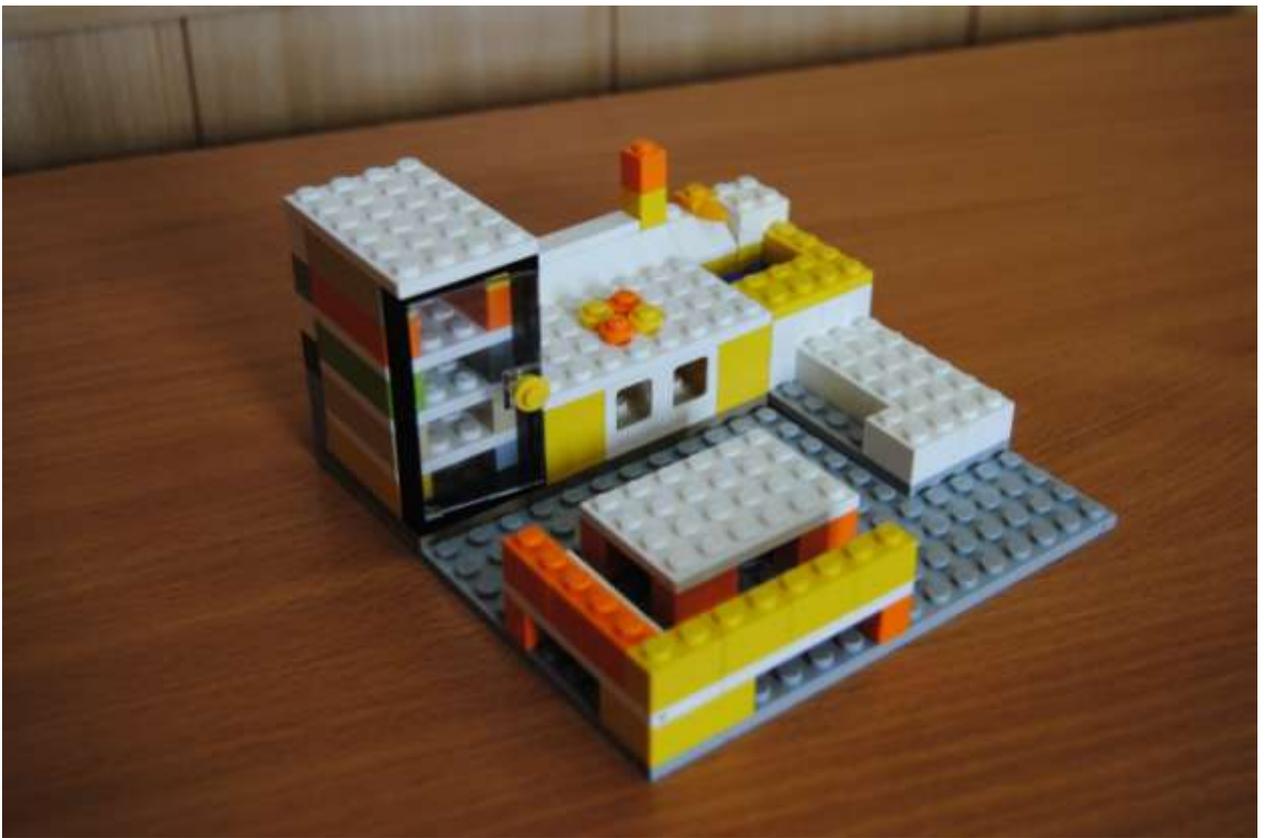

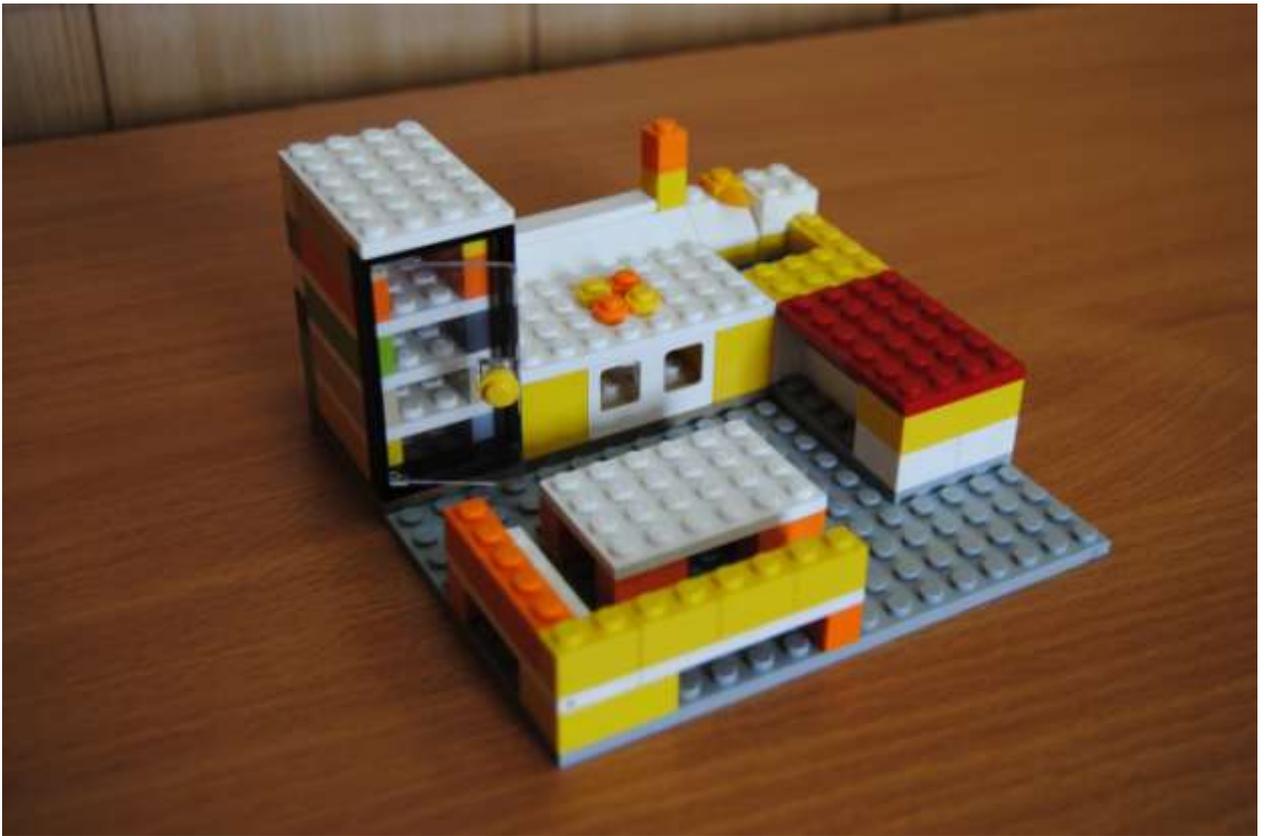

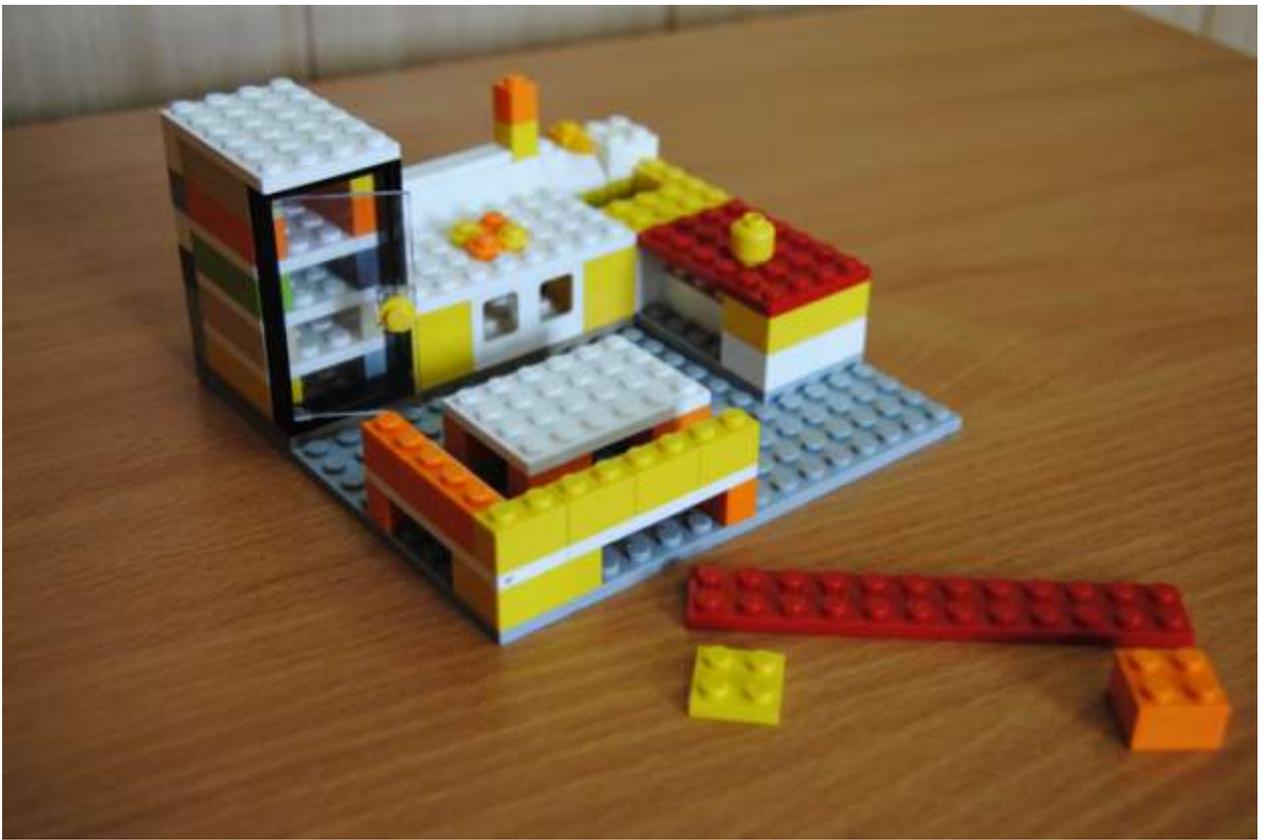

Вот у нас и получилась кухня с угловым расположением мебели и бытовой техники.

*Угловое* расположение (вдоль двух смежных стен) используют для узких помещений; оно позволяет рационально разместить оборудование и обеденный стол.
